The Bull Rider's Event has been cancelled. If we want to hold it the dates to choose from are: April 14 or 15, May 19 or 20, June 7 or 14. Because the June dates are on a Wednesday the event would more than likely not be well attended.

If the event is held after June 2016 it must go to counsel to put the money over.

Katie Ovard-Smith suggested the event should be piggy-backed onto something else because held by itself Bull Rider Events are usually not well attended.

Chance Hunter told the Board that advertising needed to be better. One way to do this is for the Board to have their own Web page. When the page is created the City can put a "pull down" tab on their page and it will pop up. Doug Vawdrey and Chance Hunter will work on creating a domain and then a web page. The Board decided the name for the web page will be, "Draper City Arena Events"
