

Arena Board

September 26, 2018

Present: Katie, Buzz, Doug, Chance, Janice

Since we do not have a full quorum, we did not vote on any measures.

Doug reported on his visit to Herriman City . He was checking on what they arranged with Brian Green to be involved with their moto cross event. They paid Brian \$7500. Brian got the riders and kept the registration fees. The city did everything else. They plan to continue having this event but will consider doing it themselves. We will talk more about this event at our next meeting. It was proposed that several board members talk to Brian and see if he will do our moto cross for the same cost that Herriman paid him.

The proposed demolition derby has been pushed back from September. It is being privately sponsored so we are not sure when it may take place.

A meeting was held with Rhett (from the city), Alan K. and Chance. Alan said we are interested in doing this event again. He asked if the city would support it. The city said it would be ok to have a construction company prepare the course. Wayland would still be in charge of designing it.

Katie requests keys to the black widow and the arena gate. Chance will look into this.

The black widow has not had the wheel fixed on it yet. Chance will check.

Some clay has been delivered to the arena. But we will wait until after the proposed demolition derby to bring in any more.

Our next meeting has been moved up to October 17 at 6:00.

Meeting adjourned.
