

CREEK MANAGEMENT

1. Preparation

- a. Check creek channels prior to spring runoff and identify potential problem areas.
- b. Monitor creeks on a regular basis.
- c. Check outfalls to any waters of the state (creeks, ponds, canals) to look for maintenance needs or illicit discharges.
- d. Check culverts and crossings before spring runoff and after every storm.
- e. Identify areas requiring maintenance.

2. Process

- a. Clean debris as necessary from channels and culverts.
- b. Notify Salt Lake County Flood Control @ 801-483-6000.
- c. Follow SOP "**IDDE-Opportunistic Illicit Discharge Observation**" if you encounter any illicit discharges.

3. Documentation

- a. Keep log of actions performed including date and individuals involved.
