

VEHICLES – WASHING

1. Preparation

- a. Relocate truck, vehicle, or equipment to wash bay provided with a separator system, which is attached to the sanitary sewer system.
- b. No vehicle washing will be done where the drain system is connected to the storm drain system.

2. Process

- a. Minimize water and soap use when washing vehicles inside the Truck Wash building.
- b. Use hoses with automatic shut off nozzles to minimize water usage.
- e. Never wash vehicles over or a storm drain.

3. Clean Up

- a. Clean solids from the settling pits on an as needed basis.
