November 18, 2025

To the Honorable Mayor, Members of the City Council and Citizens of City of Draper:

The Annual Comprehensive Financial Report (ACFR) of the City of Draper, Utah, for the fiscal year ended June 30, 2025, is hereby submitted. This report has been prepared by the City's Finance Department in accordance with generally accepted accounting principles (GAAP) and audited in accordance with government auditing standards by a firm of licensed certified public accountants. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures and supplementary information rests with the City's management.

State law requires that general-purpose local governments publish a complete set of financial statements in accordance with GAAP within six months of the close of each fiscal year. State law also requires the report be audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

As required by State law, Draper City's financial statements have been audited by HBME, LLC, a firm of certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements for the fiscal year ended June 30, 2025, are free of material misstatements. The audit involved examining on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation.

The independent auditors concluded there was a reasonable basis for rendering an unmodified opinion of the City's financial statements for the fiscal year ended June 30, 2025. Their report is included in the financial section of this report.

GAAP requires management to provide a narrative, introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A immediately follows the independent auditor's report.

To provide a reasonable basis for making these representations, the management of Draper City has established a comprehensive internal control framework designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of Draper City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, Draper City's framework of internal controls is designed to provide reasonable, rather than absolute, assurance the financial statements will be free from material misstatement. As management, we assert that to the best of our knowledge, this financial report is complete and reliable in all material respects.

## **City's Profile**

The City of Draper, Utah, was incorporated on February 22, 1978. The City has an estimated population of 50,160, making it one of the largest cities in the state and a city of the third class, as defined by the State of Utah. At build-out, the City is projected to have a population of 75,000. Draper City is approximately 30.12 square miles located mainly within the Salt Lake metropolitan area, with a portion overlapping into northern Utah County.

The City provides a full range of services to its businesses and residents. These include police and fire protection, culinary water, storm drain, solid waste and recycling collection and disposal, construction and maintenance of roadways, parks and recreation facilities and street lighting. The City provides community and cultural events, including Draper Days.

Draper City operates under the six-member council form of municipal government. The City Council is the legislative branch of the city government and is composed of the Mayor and five council members. The term for each of these elected offices is four years. The City Council is responsible for passing ordinances, adopting the budget, appointing the City Manager and provides its advice and consent to the appointment of city officials required through state or local policy. The Council is also responsible for appointing committees.

The City Manager serves as the chief administrative officer responsible for directing the day-to-day operations of city affairs, and the implementation of City Council ordinances and policies as adopted. As the City Council's chief advisor, the City Manager prepares a recommended budget for Council's consideration and recruits, hires and supervises city staff.

Utah state law requires the City to adopt a budget for all funds on an annual basis, and requires that all funds maintain a balanced budget, with some limited exceptions. State law also requires that departmental expenditures do not exceed appropriated funding levels, except in cases of emergency (such as a natural disaster). Authority to revise the approved budget rests with the City Council, which may be accomplished following the completion of noticing and hearing requirements.

## **Economic Condition**

Draper continues to demonstrate strong economic momentum heading into 2026, with a steady stream of new businesses opening across the city, including restaurants, salons, medical offices, and new pickleball facilities that add both amenities and local jobs. This growth is complemented by the completion of all four station area plans required by the state legislature. These plans position Draper for long-term success by encouraging new housing options and vibrant, transit-oriented retail districts around key transit stops. Together, these investments strengthen Draper's economic base, support future revenue stability, and enhance the overall quality of life for residents and businesses alike.

## **Relevant Financial Policies**

Cash during the year was invested in the Public Treasurer's Investment Fund and with both Moreton Asset Management and Meeder Public Funds. The City's investment policy is to minimize credit and market risks while maintaining a competitive yield on its portfolio. The City's bank deposits are uncollateralized and

insured up to \$250,000 per institution by the FDIC. Utah operates under state statute allowing investments to be uncollateralized if state guidelines are followed.

The City is self-insured for unemployment and general liability exposures. The City is a member of the Utah Risk Management Association, which provides general liability coverage for claims up to \$6,000,000.

The City pays unused vacation, holiday, a portion of sick, and compensatory time balances at termination.

### **Long-term Financial Planning**

The City has taken and will continue to take significant steps to address long-term financial stability. Some of these are:

- Revenue diversification
- Reviewing fees for service to reflect the cost of that service's delivery
- Continuing the funding of infrastructure maintenance programs
- Continuing the funding of reserve accounts
- Targeting expenditure reductions to match community priorities
- Continuing to follow conservative financial practices and policies
- Supporting innovation to promote continuous improvement

All of these were accomplished while continuing to focus on the City's long-term strategic vision and priorities.

The City has been judicious in the use of debt financing, and as such has positioned itself to be able to take advantage of low interest rates and low construction costs to fund infrastructure and other City facilities, if needed.

### **Acknowledgements**

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated service of the entire staff of the Finance Department. Each member of the Department has our sincere appreciation for the contributions made in the preparation of this report. In closing, without the leadership and support of the City Council, preparation of this report would not have been possible.

Respectfully submitted,

Mike Barker  
City Manager

John Vuyk  
Finance Director

## INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of the City Council  
City of Draper, Utah

### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Draper, Utah (the City), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City Draper, Utah, as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Responsibilities of Management for the Financial Statements*

The City's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Page 1

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5-16, the budgetary comparison information on pages 65-67, and the pension schedules on pages 68-70 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of

financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and budgetary comparison schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and budgetary comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information Included in the Annual Report***

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2025 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

*HBMC, LLC*

# MANAGEMENT’S DISCUSSION AND ANALYSIS

## FOR THE YEAR ENDED JUNE 30, 2025

Draper City Corporation’s (the City) management presents to the readers of its financial statements this narrative information. It contains an overview and analysis of the financial position and results of operations as of and for the twelve months ended June 30, 2025. As management of the City, we encourage readers to consider information contained in this discussion and the City’s financial statements, which follow this section.

### Financial Highlights

- The assets and deferred outflows of resources of the City exceeded the liabilities and deferred inflows at the close of Fiscal Year 2025 (FY2025) by \$640,519,807 (net position). Of this amount, \$112,203,541 is in unrestricted net position, which is available to meet ongoing obligations.
- The City’s net position increased by \$7,226,333. Of this increase, \$4,207,561 is attributable to governmental activities. Business-type activities accounted for an increase of \$3,018,772 to the City’s net position.
- FY2025 general fund final revenues before other financing sources was \$54,824,396. This represented a increase of \$3,314,227 or 6.4% change from the prior fiscal year. Taxes continued to be the largest source of the revenue, which accounted for \$38,467,964 or 70.2%. Overall, total tax revenues increased by \$2,098,465 or 5.8%.
- Actual expenditures for operations in the general fund were \$43,604,718 before other financing uses. The excess of revenues over expenditures within the general fund was \$11,219,678 before other financing sources (uses). The net other financing sources (uses) was (\$10,050,899). The cumulative effect was an increase in fund balance of \$1,168,779.
- The outstanding bonds (including unamortized premiums) at year-end decreased by \$2,637,147 after scheduled bond payments, leaving total bonds payable of \$12,473,591. The City also had outstanding notes payable of \$10,549,306, which is a slight decrease from FY24.

### Report Overview

This discussion and analysis are intended to serve as an introduction to the City’s basic financial statements. The City’s basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplemental information and other supplementary information in addition to the basic financial statements themselves that will help the reader to gain a more in-depth understanding of the City.

### Government-wide financial statements:

The government-wide financial statements provide a comprehensive overview of the City’s financial position and changes that occurred during the current fiscal year. These statements are structured similarly to consolidated financial statements used in the private sector, offering a comprehensive view of the City’s financial health.

The Statement of Net Position presents information on all of the City’s assets, liabilities, and deferred outflows/inflows of resources, with the net position representing the difference between the two. This measure serves as a key indicator of the City’s financial condition – growth in net position suggests improvement, while a decline may be a sign of potential fiscal challenges.

The Statement of Activities details how the City’s net position has changed over the reporting period. It captures all revenue and expense activity as it occurs, regardless of when cash is received or paid. This accrual-based approach means that some revenues and expenses—such as interest on debt—may impact cash flows in future periods, even though they are recognized in the current fiscal year.

The government-wide financial statements differentiate between two types of City functions: governmental activities and business-type activities. Governmental activities are primarily funded through taxes and intergovernmental revenues and include essential public services such as general government, public safety (police and fire), streets, planning, economic development, and parks and recreation. In contrast, business-type activities are designed to recover all or a substantial portion of their costs through user fees and charges. These include services such as

culinary water, storm drainage, sanitation, and ambulance operations. This distinction provides readers with a clearer understanding of how the City finances its various operations and the extent to which each function relies on public funding versus self-sustaining revenue sources.

The government-wide financial statements include not only the City of Draper (the primary government), but also three legally separate component units, the Municipal Building Authority of the City of Draper, the Community Reinvestment Agency of the City of Draper and Traverse Ridge Special Service District, for which the City is financially accountable. Financial information for these blended component units is presented with the financial statements for the City. The government-wide financial statements are found immediately following this discussion and analysis.

### **Fund Financial Statements:**

A fund is a grouping of related accounts established to maintain control over resources segregated for specific activities or objectives. Some funds are required to be established by State law and/or bond covenants. City funds can be divided into three categories: governmental funds, proprietary funds and internal service funds.

**Governmental Funds** - The City's core services are primarily accounted for through governmental funds, which emphasize the inflows and outflows of financial resources and the balances available for future spending. These funds are presented using the modified accrual basis of accounting, which recognizes revenues when they become available and measurable and expenditures when liabilities are incurred. This approach provides a short-term financial perspective, offering insight into the City's ability to meet current obligations and sustain essential operations. The governmental fund statements are instrumental in evaluating changes in financial resources that may affect the City's capacity to fund programs and services in the near term. The relationship between governmental activities – presented in the Statement of Net Position and the Statement of Activities – is described in the reconciliations presented after the fund financial statements.

The City maintains the following ten (10) individual governmental funds:

- General
- Municipal Building Authority
- Capital Projects
- Fire Impact Fee
- Transportation Impact Fee
- Park Impact Fee
- Police Impact Fee
- Community Reinvestment Agency
- Cemetery Permanent Fund
- Traverse Ridge Special Service District (special revenue)

**Proprietary Funds** - When the City provides services for a fee—whether to external customers or internally to other City departments—these activities are generally accounted for in proprietary funds. Proprietary funds are presented using the same accrual accounting methods as the government-wide financial statements, specifically in the Statement of Net Position and the Statement of Activities. The City's enterprise funds, which are a component of proprietary funds, are reported as business-type activities in the government-wide statements. Separate statements, including cash flow statements, are provided for proprietary funds to enhance transparency and analysis of these activities.

The City maintains the following four individual proprietary funds:

- Water (includes Impact Fees)
- Storm Water (includes Impact Fees)
- Solid Waste (Sanitation)
- Ambulance

**Internal Service Funds** - When the City delivers services internally these activities are accounted for in internal service funds. Although they operate similarly to business-type activities, internal service funds are included with governmental activities in the government-wide financial statements because they primarily support governmental functions. Detailed information on each internal service fund is presented in the supplementary section of this report, providing additional insight into the City's internal operations and cost allocation practices.

The City has two internal service funds:

- Fleet
- Risk

**Notes to the Financial Statements** - The notes provide additional information critical to a full understanding of the data presented in the government-wide and fund financial statements. The notes to the financial statements can be found immediately after the fund financial statements.

**Required Supplemental Information** – This section includes budget to actual comparison schedules for the City's general fund and major special revenue funds, including the Community Reinvestment Agency (CRA) fund. It also contains required schedules for the City's pension programs.

**Other Information** - In addition to the basic financial statements and accompanying notes, this report also presents the combining statements referred to earlier in connection with non-major governmental funds. Combining and individual fund statements and schedules can be found after the notes in the financial section.

### Financial Analysis of the Government-Wide Financial Statements:

#### Draper City's Government-Wide Statement of Net Position:

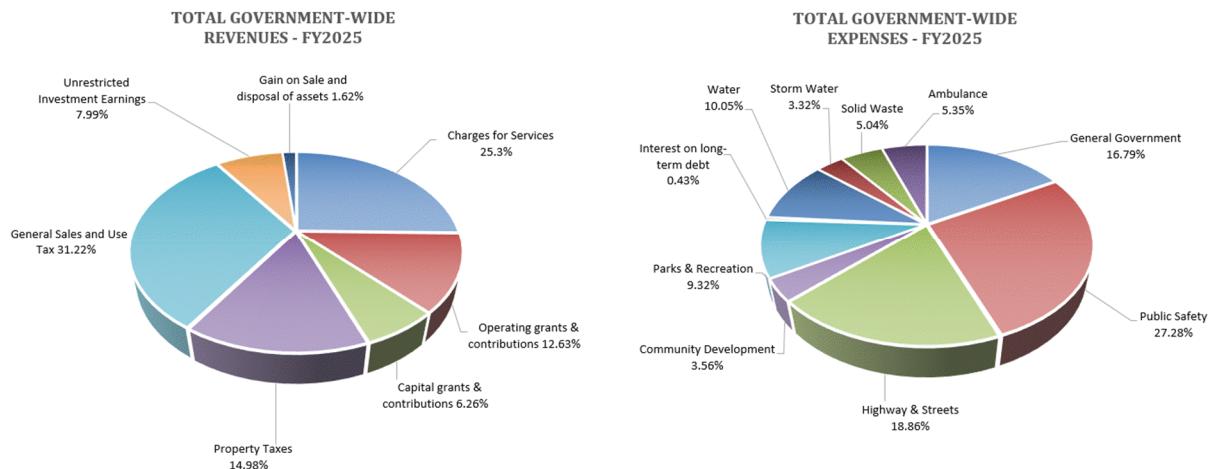

As of the end of the fiscal year, the City's net position continues to be primarily comprised of its investment in capital assets, which accounts for approximately 78.1% of the total. These assets—such as infrastructure, buildings, and equipment—are essential for delivering public services and are not considered liquid resources available for future spending. While this investment is reported net of related debt, it is important to note that the repayment of this debt must be funded through other financial resources, as capital assets themselves cannot be used to satisfy these obligations. The City has \$28,323,238 of funds with restrictions either based on funding source or potential expense. The remaining portion of the City's net position, classified as unrestricted, provides flexibility to meet ongoing operational needs and financial commitments to both residents and creditors.

The City continues to report positive balances in all three categories of net position - the government as a whole, as well as for its separate governmental activities and business-type activities.

Fiscal Year Comparison of Net Position	Governmental Activities		Business-type Activities		Total Primary Government	
	2025	2024	2025	2024	2025	2024
Current and other assets	\$ 132,093,744	\$ 125,226,846	\$ 42,231,873	\$ 38,761,252	\$ 174,325,617	\$ 163,988,098

**Governmental Activities -**

Net position for governmental activities increased in FY2025. Total revenues for governmental activities, which is made up of both program revenues and general revenues (taxes and investments) was \$68,799,089 and expenses for the same governmental activities was \$60,391,528 resulting in a change of net position before transfers at \$8,407,561. After transfers out of \$4,200,000, the final increase in net position was \$4,207,561. Overall net position improved, with the current year's change exceeding the prior year's change by \$907,813. Total revenue increased by \$5,217,668 a change of 8.2%, while total expense increased by \$5,324,855 a change of 9.7%. The City decreased transfers out by \$1,015,000 allowing the City to have a positive change in net position.

- Significant changes to revenues included, a change of \$2,152,174 in program revenues, and an increase of \$3,065,494 in general revenues. Program revenues saw increases in charges for services of \$871,575 and operating grants of \$2,356,129 which were offset by a decrease in capital grants and developer contributions of (\$1,075,530).
- Tax revenue saw an increase of property tax of \$2,094,620 resulting from the change in property tax rate adopted by the City Council last year. This increase was associated with an increase in the cost to provide public safety.
- The City also experienced increases in program expenses, the largest increases were in public safety and streets and public improvements. Public safety increased by \$3,063,395, or 16.5%, due to increases in staffing to enhance public safety and general increases in personnel costs. Streets and public improvements saw an increase in cost of \$2,198,879 due to increased costs associated with supplies and personnel expense.

The City continues to rely heavily on general revenue from taxes to cover program expenses. Program revenue did not cover \$38,367,982 in the program expense in fiscal year 2025. This required the City to use 96.1% of its tax revenue to cover program costs. The City's reliance on property and sales tax to fund programs continues to be a challenge that will require careful management in the future.

**Business-Type Activities -**

Net position for business-type activities increased \$3,018,772. Revenue for business-type activities totaled \$17,636,602 before transfers and \$21,836,602 after the transfer from the general fund of \$4,200,000. Business revenues increased \$2,070,362 compared to the previous year where revenues before transfers were \$15,566,240. The City decreased transfers to enterprise funds by \$1,015,000. In FY2025, charges for services represented 67.25% of the total revenues. Each business unit saw increases in operating revenue over FY2024. Water saw an increase of \$1,505,304, storm water has an increase of \$38,827, solid waste had an increase of \$30,608, while ambulance had an increase of \$53,349.

Expenses for business-type activities totaled \$18,817,830. This is a decrease of \$1,842,424 from the previous year. All business units experienced relatively flat costs except storm water which had a decrease of (\$3,013,749), costs for FY24 were above normal due to repairs associated with a large storm. The increases in water, solid waste and ambulance were associated with cost increases in supplies and personnel.

**Financial Analysis of the Fund Financial Statements:****Governmental Funds:**

The City's governmental funds are accounted for using the modified accrual basis of accounting. The governmental funds provide information on the short-term resource inflows and outflows and account balances at the end of the fiscal year. The total fund balance is a measure of total available resources and the unassigned portion of this total fund balance is a measure of the available resources at June 30, 2025.

As the City completed the year, its governmental funds reported a combined fund balance of \$90,385,516, which is an increase of \$5,271,145 compared to the prior fiscal year. Of that available fund balance, \$56,927,432 is available for spending (assigned & unassigned). The remaining balances are nonspendable or restricted. The nonspendable amount of \$6,401,621 is primarily a note receivable from the Loveland Planet Aquarium. The restricted amount of \$27,056,463 consists of the following fees: impact fees, B&C road funds, transportation, grants, debt service and perpetual care. The total assigned balance is \$37,947,787. Assigned funds related to capital remained fairly flat with a slight increase of \$407,089 as funds earmarked for specific projects remained consistent with FY2024. The unassigned balance in the general fund is \$18,979,645 or 34.6% of general fund revenues.

**General Fund:**

The general fund as reported consists of the general government fund, class B&C roads and highway option tax and highway projects funds. At June 30, 2025, the fund balance of the combined general fund was \$41,357,229 which is an increase of \$1,168,779.

***General Government Fund*** – The general government fund accounts for all of the general services provided by the City. Revenues exceeded expenditures by \$11,219,678 before other financing sources and uses.

***General Fund Revenues*** – General Fund revenues increased over FY2024 by 6.43%, or an increase of \$3,314,227. Taxes continued to be the largest source of revenue in the general fund and represented 70.2% of total revenues. This category was made up of sales tax, property tax, energy tax, and franchise taxes. Tax revenue as a whole increased by \$2,098,465 when compared to the prior year.

Sales tax revenues were the largest tax revenue contributor in 2025, but saw a slight decrease from the prior year of (\$151,502) or (0.7%) as compared to 2024. While sales tax remained consistent the general increases in consumer prices had an impact on the types of spending.

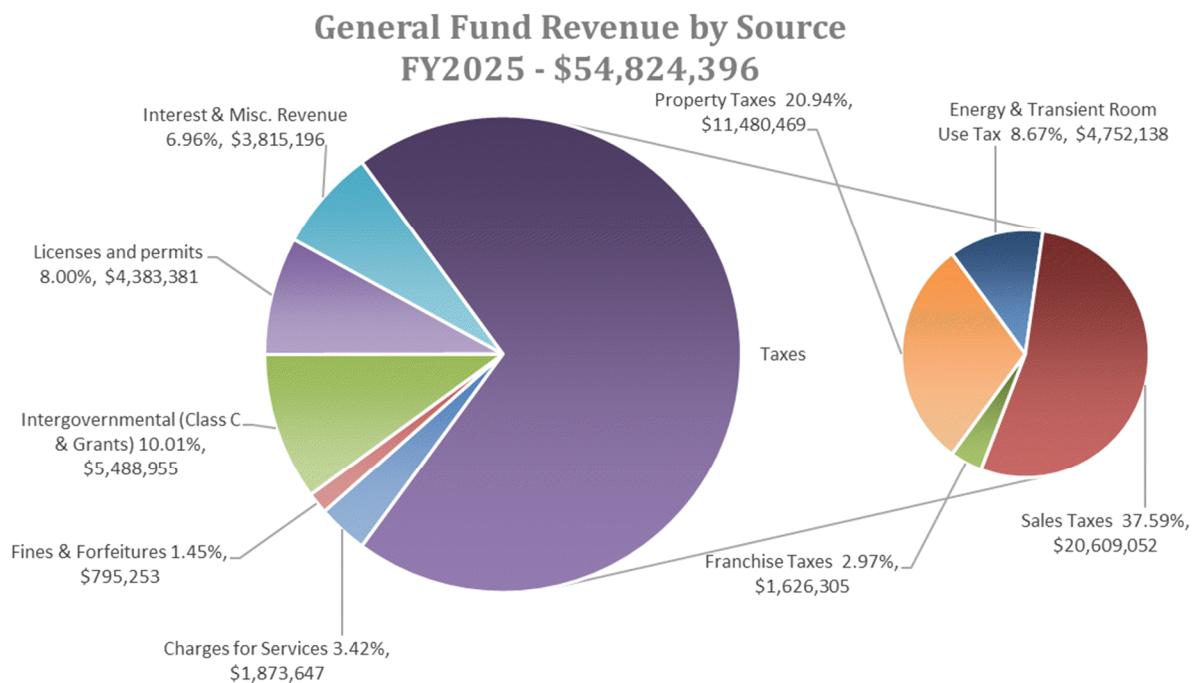

The largest increases in revenue in 2025 came from property tax and licenses and permits. Property tax increased by \$2,167,872 as a result of the change in tax rate adopted by the City Council. Licenses and permits increased by \$1,223,966 or a 38.7% increase.

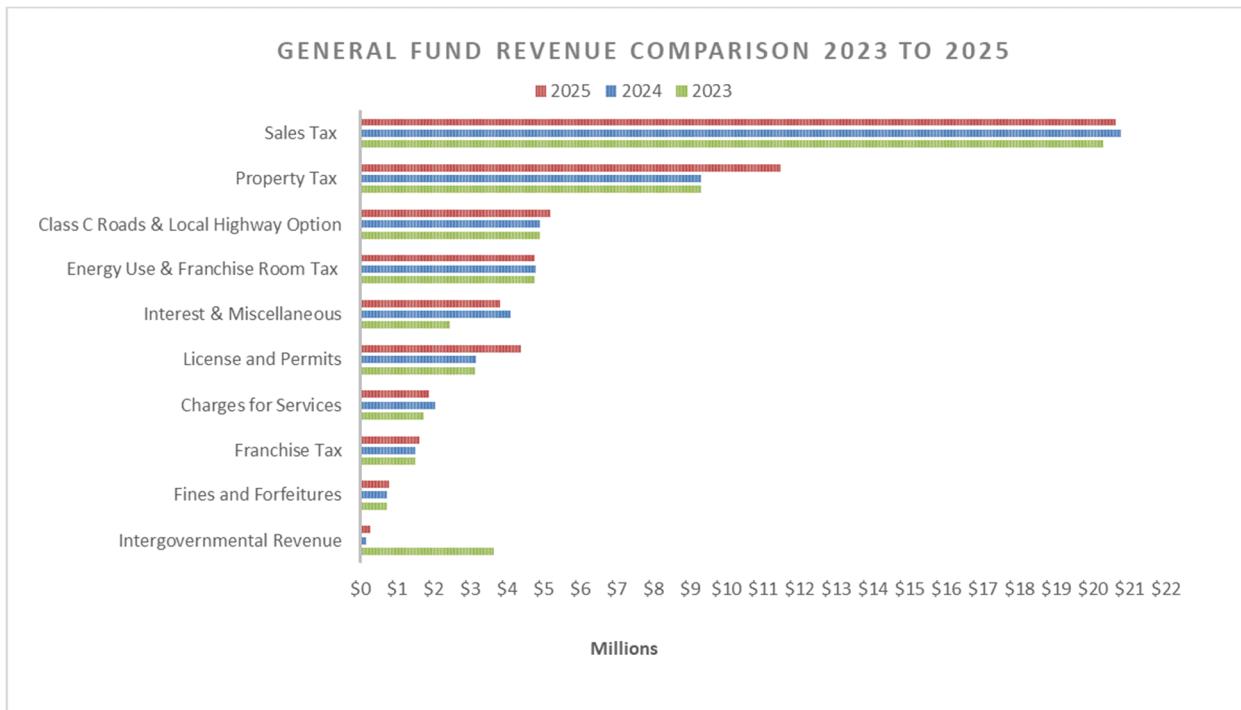

Interest revenue remained strong, but saw a decrease from 2024 of (\$76,327) due to the reduction in interest rates. Revenue from fines and forfeitures also remained consistent with a minimal increase of \$64,196.

Charges for services decreased slightly by \$189,871, fees in this classification include rents and leases, recreation program fees, park reservation fees, passport fees, and other fees. For FY2024, the increase was associated with event and program registrations as well as sponsorship agreements and cell tower rentals.

The programs supported by general fund revenues (in order of how much they depend on general revenues to operate, with percentage of funding coming from general fund revenues) are:

Program Supported	Amount of Program funded w/GF	% of Program Funded with General Revenues	
Program		FY2025	FY2024
1st Public safety	\$ 20,433,558	94.56%	94.93%
2nd Streets and public improvements	8,656,072	57.93%	32.85%
3rd Parks and recreation	5,169,246	69.99%	79.68%
4th General government	5,029,669	37.82%	54.47%
5th Interest on long-term debt	337,381	100.00%	100.00%
6th Community development	(1,257,944)	-	0.00%

**General Fund Expenditures** – General fund expenditures increased from \$41,691,606 in FY2024 to \$43,604,718 in FY2025, which represents a 4.6% increase. The net change in expense was an increase of \$1,913,112.

General cost increases associated with inflation as well as increases to employee compensation were the major contributors to the additional costs experienced in FY2025. Public safety was the largest expense for the City and costs over FY2024 increased by \$1,818,684 for a total of \$20,410,136. Expenditures for general government activity totaled \$7,773,031 for FY2025, which is an increase of \$81,385. Parks & Recreation also saw an increase over the prior fiscal year bringing total expense in FY2025 to \$5,555,656. Community Development costs rose \$46,224 from FY2024 to \$2,861,695.

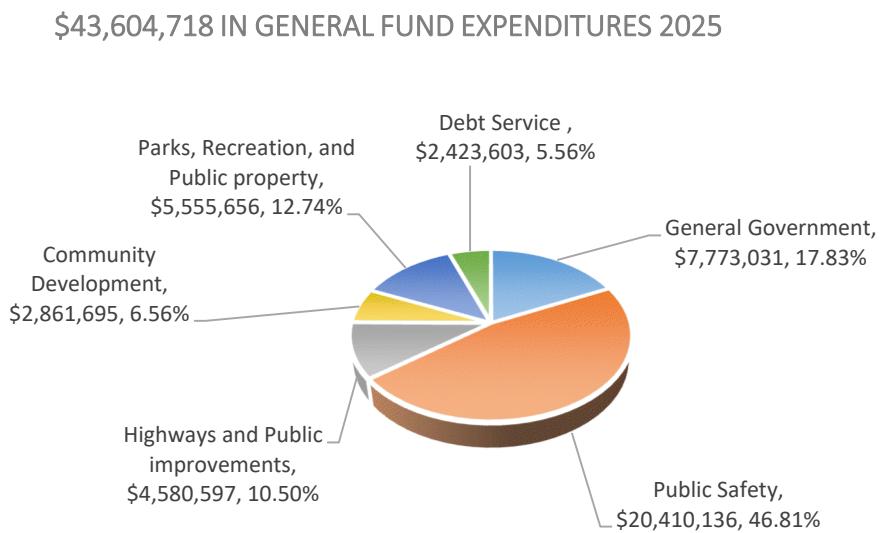

The City completed payment of the series 2014 general obligation bond in 2025. Completion of this payment will result in a decrease in debt service in FY2026. FY2025 also had a slight decrease, with total debt and interest payments from the general fund coming in at \$2,423,603.

**Class B&C Roads, Highway Option & Highway Projects Funds** – The class B&C roads accounts for funds received from the State of Utah that are restricted for use for the construction and maintenance of roads classified as B or C. Highway Option taxes are a quarter of one percent sales tax that is restricted, similar to the B&C funds, for transportation projects. Highways projects funding come from the State of Utah as allocated in SB0051-2022.

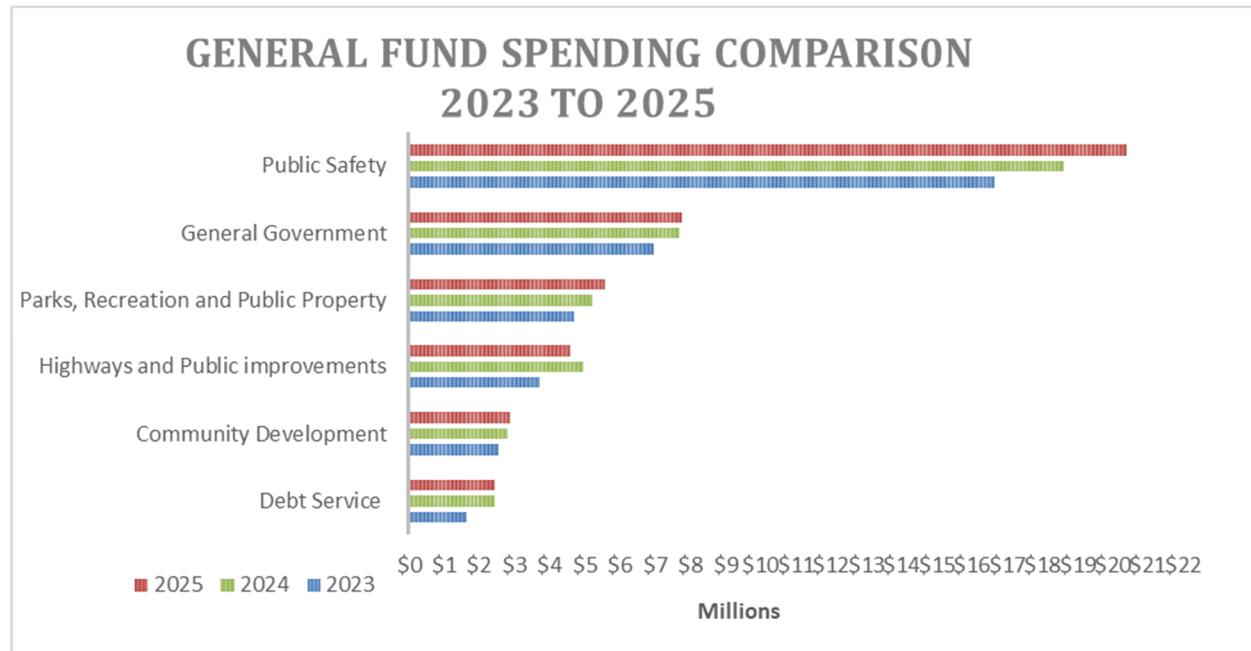

At June 30, 2025, the restricted fund balance for B&C roads was \$6,230,370 held in the general fund. The amount restricted for the Highway Option Tax (transportation) and Highway Projects is a combined \$9,071,220.

Changes to revenues in these funds are tied to either sales tax or the gasoline taxes and are a set percentage so as prices increase so does the revenue. Expenses are restricted to specific transportation related projects. The combined fund balances for these funds decreased in FY25 by (\$864,203). The availability of these funds will allow the City to accomplish some of the major road projects required in the future.

The following chart shows the percentage and amount of general fund spending by broad functions:

The next chart compares general fund spending grouped by governmental activities.

## General Fund Budgetary Highlights

The original adopted fiscal year 2025 expenditure budget for the general fund totaled \$47,181,600 before other financing sources (uses). The final adopted budget for the general fund totaled \$47,615,100. Changes included changes in staffing, additional funding for CIP related projects and required payments for debt service. The City Council approved four budget revisions during the year – October 2024, February 2025, May 2025 and June 2025. Actual expenditures were less than the final budget by \$4,010,382.

### ***Other Governmental Funds***

***Capital Improvement Projects Fund*** – The capital projects fund has a total fund balance of \$15,825,589 at June 30, 2025, all of which is either externally restricted or assigned for unfinished projects. This is an increase of \$346,299 from the prior fiscal year due to the changes in budgeted projects.

***Community Reinvestment Agency Fund*** – Revenue, plus investment income, from the established redevelopment areas decreased (\$71,204) from the prior year for annual revenue. Total CRA revenue for 2025 was \$9,278,762. For more detailed information on the Community Reinvestment Agency of Draper City, please refer to the annual June 30<sup>th</sup> report that is submitted in compliance with the Utah State Code.

***Impact Fee Funds*** – Impact fee revenues from permit fees more than doubled for the year by \$1,153,371. The total impact fee revenue for governmental related impact fees was \$1,816,808. Impact fees saw a significant increase due to increased construction and permit from FY2024. Impact fees are meant to provide the necessary infrastructure to support new development, budgets are developed using current resources. The largest impact fee fund balance is with the parks impact fund that ended the year with \$5,567,042. The other impact related fund balances are transportation impact fund with \$5,207,712, fire impact fund \$130,920, and police impact fund with \$4,567. The total restricted impact fee fund balance at the end of the fiscal year is \$10,910,241. For further information please refer to the Impact Fee Report that is uploaded annually to the Utah Office of the State Auditor.

***Municipal Building Authority Fund*** – This fund had no transactions and no fund balance for the year.

### **Proprietary (Enterprise) Funds:**

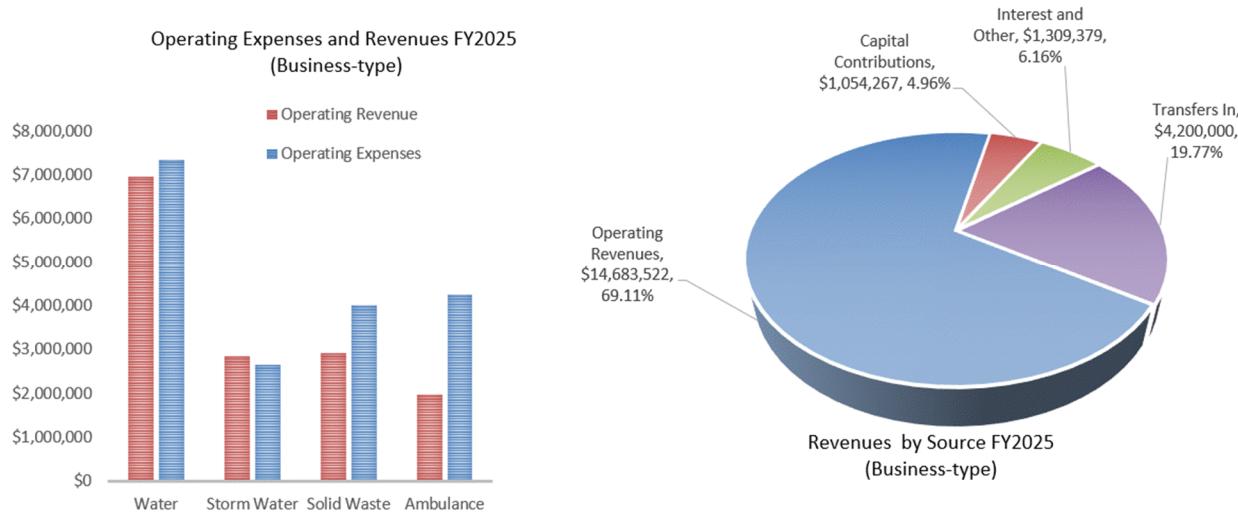

***Water Fund*** – Unrestricted net position in the water fund increased by \$2,833,942 when compared to the previous year, with an ending unrestricted net position at June 30, 2025 of \$12,167,621. Operating revenues from water activities increased \$1,504,304 as compared to the previous fiscal year 2024. This is due to an increase in water usage and the adopted water rate change. Operating expenses decreased slightly by (\$15,262) from \$7,362,304 in FY2024 to \$7,347,042 in FY2025. Personnel costs rose \$352,433 due to a full year of salary for the three new positions added midway through FY2024. Water purchases increased by \$547,092 over fiscal year 2024. The water fund recognized a loss of (\$387,791) before nonoperating revenues/expenses and before capital contributions/transfers. The loss is a result of the City maintaining rates over the past few years but is offset compared to last year due to the rate change implemented in the current fiscal year. The City has raised rates again to counteract the operating loss it has had over the past two years. The water fund posted a change in net position of \$2,422,089 as a result of a \$2,000,000 transfer from the general fund.

***Storm Water Fund*** – Unrestricted net position in the storm water fund increased \$547,681 to a balance of \$16,973,233 at June 30, 2025. Operating revenues from storm water utility fees increased \$39,827 (or 1.4%) as compared to the previous fiscal year. Operating expenses decreased (\$3,013,749). Personnel costs rose approximately \$162,000. Costs decreased due to a one-time increase in FY2024 as a result of a significant storm in August 2023 that caused major flooding resulting in damage to City storm water infrastructure and roads at a cost to the fund of \$2,518,579 in FY2024. The storm water fund recognized income from operations of \$191,256 before nonoperating revenues/expenses and before capital contributions. After capital contributions of \$66,350, interest income of \$739,066 and a gain on the sale of assets of \$20,425 the storm water fund had a positive change in net position of \$1,017,097.

**Solid Waste Fund** – Unrestricted net position in the solid waste fund decreased (\$543,873) leaving a balance of \$9,404,801 at June 30, 2025. Revenues from solid waste utility fees increased \$30,608 as compared to the previous fiscal year. Operating expenses showed an increase of \$390,862. Personnel costs rose approximately \$221,000. The solid waste fund had an operating loss of (\$1,080,265) before nonoperating revenues/expenses and before capital contributions. After nonoperating revenues totaling \$640,183, the solid waste fund had a negative change in net position of (\$440,082) leaving a net position of \$10,864,105.

**Ambulance Fund** – Unrestricted net position in the ambulance fund increased \$128,017, after transfers from the general fund of \$2,200,000 the ambulance fund had an unrestricted net position of \$1,894,986 at June 30, 2025. Revenues from charges for services were \$1,953,510 up slightly by \$36,147 as a result of the number of ambulance transports. Operating expenses were also up by \$246,418. The ambulance fund recognized an operating loss of (\$2,268,074) before nonoperating revenues/expenses. After nonoperating revenue of \$87,742, the total loss was equal to (\$2,180,332). The City's general fund transferred in \$2,200,000 to cover annual operational deficits associated with staffing decisions made by the City. This resulted in a positive change of net position of \$19,668 for the fiscal year.

The chart on the left illustrates operating program revenues to operating expenses per the Statement of Activities. The chart on the right illustrates the revenues by source which includes capital contributions from developers.

## Capital Assets and Debt Administration

The City's investment in capital assets for its government and business-type activities totaled \$525,375,874 net of combined depreciation and amortization on June 30, 2025. Types of assets included in this category are land, right of ways, land improvements, buildings, machinery and equipment, park and recreation facilities, roads (including curb and gutter), street lights, traffic signals, parking facilities, intangible assets, water distribution system, and storm water collection system. The change for the current year was a decrease of (\$7,415,223) in governmental activities and increase of \$289,743 in business-type activities for a combined decrease of (\$7,125,480).

Overall depreciation in the governmental activities increased by \$397,179. The business-type funds depreciation decreased by (\$23,844). Changes were the result of changes in the number of assets held by the City.

	Governmental Activities 2025	Governmental Activities 2024	Business-type Activities 2025	Business-type Activities 2024
Land and right of ways	\$ 349,043,550	\$ 354,661,205	\$ -	\$ -

Additional information regarding the City's capital assets can be found in Note 6.

### Long-term Debt

As of June 30, 2025, the City's outstanding bonds, notes payable and lease payable amount to \$23,455,487. This is a net decrease of \$2,919,109. The City has issued several bonds in previous years to assist in building and acquiring capital assets. The City completed the final payment on its general obligation bond in FY2025 and currently has no outstanding balance. As of June 30, 2025, the City has three sales tax revenue bonds outstanding totaling \$10,615,000, excluding any unamortized premiums.

The City also reported an obligation as a note payable to a developer for infrastructure improvements that were installed and completed in which the City has accepted and is listing them with their capital assets. The portion related to governmental activities is \$9,744,594 (transportation impact fees) and the business-type activities are \$804,712 (water impact fees). Remaining outstanding obligations will be paid back to the developer through transportation and water impact fees as they are collected.

The business-type activities have one outstanding water revenue bond for \$815,000.

	Governmental Activities 2025	Governmental Activities 2024	Business-type Activities 2025	Business-type Activities 2024
Bonds Payable	\$ 11,658,591	\$ 14,189,738	\$ 815,000	\$ 921,000

***RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF NET POSITION – JUNE 30, 2025 – CITY OF DRAPER, UTAH***

**Amounts reported for governmental activities in the Statement of Net Position are different because:**

Total fund balances for governmental funds	\$ 90,385,516
Capital assets, including intangible right-to-use assets, used in governmental activities are not financial resources and therefore, are not reported in the funds.	465,143,060
Other long-term assets are not available for current period expenditures and, therefore, are not reported in the funds balance sheet.	7,068,663
Accrued interest on long-term debt is not due and payable in the current period and, therefore, is not recorded in the funds.	(88,936)
Long-term liabilities, including bonds, leases, subscriptions payable, compensated absences, and notes are not due and payable in the current period and, therefore, are not reported in the funds.	(25,040,093)
Other long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds balance sheet.	(5,440,774)
The internal service fund is used by management to charge the cost of insurance and claims to other funds. The assets and liabilities of the internal services fund are included in the governmental activities in the Statement of Net Position.	9,738,308
Net position of governmental activities	\$ 541,765,744

The accompanying notes are an integral part of this financial statement.

The accompanying notes are an integral part of this financial statement.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND  
BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES –  
FOR THE YEAR ENDED JUNE 30, 2025 – CITY OF DRAPER, UTAH**

**Amounts reported for governmental activities in the Statement of Activities are different because:**

Net change in fund balances for governmental funds	\$ 5,271,145
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, assets with an initial cost of \$5,000 or more are capitalized and the cost is allocated over the assets estimated useful lives and reported as depreciation or amortization expense.	
Capital outlay	5,092,221
Depreciation and amortization expense	(8,199,753)
Cost of capital assets sold	(5,850,850)
Contributed assets are not recorded in governmental funds because current resources are not expended for acquisition. The Statement of Activities records these contributed assets at their estimated fair value on the date of contribution.	175,675
The issuance of long-term debt (e.g., bonds, leases, subscriptions) provides current financial resources to governmental funds, while the payment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither type of transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued. These amounts are deferred and amortized in the Statement of Activities. These amounts are the net effect of these differences in the treatment of long-term debt and related items.	
Reduction of long-term liability	2,567,271
Amortization of bond premiums and deferred loss and gain on refundings	229,934
Accrued pension costs are not reported as an expenditure in the current period for governmental funds but are recorded as an expense in the statement of activities.	(1,244,372)
Expenses are recognized in the governmental funds when paid or due; however, the Statement of Activities is presented on the accrual basis and expenses and liabilities are reported when incurred, regardless of when financial resources are available or expenses are paid or due.	
Accrued interest	19,573
Compensated absences	(688,275)
Internal service fund is used by management to charge the cost of centralized services to individual funds. The net income of the internal service fund is reported with governmental activities.	<u>6,834,992</u>
Change in net position of governmental activities	<u>\$ 4,207,561</u>

The accompanying notes are an integral part of this financial statement.

# NOTES TO THE FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Draper (the City) was incorporated on February 22, 1978, as a third-class City under the provisions of the State of Utah and operates under a council-city manager form of government. The governing body consists of five elected council members and a mayor, each of which are elected to serve a four-year term. The heads of the various departments, formed to provide various services, are under the direct supervision of the City Manager. The City provides the following services as authorized by its charter: general administrative services, public safety (police and fire), streets and engineering, solid waste, water, storm water, recreation and parks, public improvements, and planning and zoning.

The City's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the City are discussed below.

### *REPORTING ENTITY*

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are in substance, part of the primary government's operations. Thus, blended component units are appropriately presented as funds of the primary government.

The Community Reinvestment Agency (CRA) was established to prepare and carry out plans to improve, rehabilitate and redevelop blighted areas within the City. The CRA is governed by a board composed of the members of the City Council. Although it is a legally separate entity from the City, the CRA is reported as if it were part of the primary government because of the City's ability to impose its will upon the operations of the CRA. In conformity with accounting principles generally accepted in the United States of America, the financial statements of the CRA have been included in the financial reporting entity as a blended component unit. The CRA is included in these financial statements as the Community Reinvestment Agency Special Revenue Fund. Separate financial statements are not issued for the CRA.

The City of Draper Municipal Building Authority (MBA) was established to finance and construct municipal buildings that are then leased to the City. The MBA is governed by a board composed of the members of the City Council. Although it is a legally separate entity from the City, the MBA is reported as if it were part of the primary government because of the City's ability to impose its will upon the operations of the MBA. In conformity with accounting principles generally accepted in the United States of America, the financial statements of the MBA have been included in the financial reporting entity as a blended component unit. The MBA is included in these financial statements as the Municipal Building Authority Special Revenue Fund. Separate financial statements are not issued for the MBA. The MBA did not have any financial activity for the year ended June 30, 2025, nor did they have any reportable assets, liabilities, or fund balance at year-end.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### *REPORTING ENTITY (continued)*

The Traverse Ridge Special Service District (TRSSD) was established to provide street and transportation services, for the area within the City known as Suncrest. Services provided by the TRSSD include: snow removal, street lighting, road repair and maintenance, sweeping and disposal services. The TRSSD is governed by a board composed of the members appointed solely by the City Council. Although it is a legally separate entity from the City, the TRSSD is reported as if it were part of the primary government because of the City's ability to impose its will upon the operations and Board of the TRSSD. TRSSD provides services that are entirely, or almost entirely, to the primary government or otherwise exclusively, or almost exclusively, benefits the primary government even though it does not provide services directly to it. In addition, there is a financial benefit or burden relationship between the City and TRSSD. In conformity with accounting principles generally accepted in the United States of America, the financial statements of the TRSSD have been included in the financial reporting entity as a blended component unit. The TRSSD is included in these financial statements as the Traverse Ridge Special Service District Special Revenue Fund. Separate financial statements are not issued for the TRSSD.

The City is not a component unit of any other entity. The City's basic financial statements include all City operations.

### *GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS*

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The City's general administrative services, police and fire protection (public safety), parks and recreation, and streets and public improvements are classified as governmental activities. The City's water, storm water, and solid waste services are classified as business-type activities.

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the City and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes, charges for services, and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent, on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those which are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items properly excluded from program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### *MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION*

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they become available. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The use of financial resources to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as other financing source. Amounts paid to reduce long-term debt of the City are reported as reductions of the related liability, rather than expenditures in the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectable within the current period or soon enough thereafter to pay liabilities of the current period. The City's policy for revenues to be considered available is if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt-service expenditures, as well as expenditures related to compensated absence and claims and judgments, are recorded only when payment is due.

Property taxes, sales tax, franchise taxes, licenses, interest, and earned but unreimbursed state and federal grants associated with the current fiscal period are all considered to be susceptible to accrual and have been so have been recognized as revenues of the current fiscal period. Property taxes are measurable as of the date levied (assessed) and are recognized as revenues when they become available. Available means when due, or past due, and received within the current period or collected soon enough thereafter (within 60 days) to be used to pay liabilities of the current period. All other revenues are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except for those required to be accounted for in another fund. Principal sources of revenue are taxes, licenses and permits, and intergovernmental revenues. Primary expenses are for general government, public safety, public works, and parks and recreation.

The *Capital Projects Fund* account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets (other than those financed by Proprietary Funds and Special Revenue Funds).

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### *MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (continued)*

The *Community Reinvestment Agency* is a Special Revenue Fund. Special Revenue Funds are used to account for and report proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service or capital projects. This fund accounts for property tax increment revenues from redevelopment areas within the City, which will be used to revitalize and upgrade these areas with qualifying developments.

The *Municipal Building Authority* is a special revenue fund used to account for lease revenue proceeds which are used to remit payments for the related long-term debt. This debt was retired in the previous year, so no balances or activity exist for the current year.

The City reports the following major proprietary funds:

The *Water Fund* accounts for the activities of the City's water distribution system including, billing and collection from customers, water purchases, and system repairs and improvements.

The *Storm Water Fund* accounts for the activities of the City's storm drain collection system including, billing customers, collections from customers, and system repairs and improvements.

The *Solid Waste Fund* accounts for the activities of the City's solid waste collection operations including, billing customers, collections from customers, garbage pick-up, and tipping and disposal fees.

The *Ambulance Fund* accounts for the activities of the City's ambulance and paramedic services, including calls for service and transports.

Additionally, the City reports the following fund type:

As previously mentioned, special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The City reports the following nonmajor special revenue fund:

*Traverse Ridge Special Service District (TRSSD)* is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes in the District.

As previously mentioned, capital projects funds account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets (other than those financed by Proprietary Funds and Special Revenue Funds). The City reports the following nonmajor capital projects funds:

The *Fire Impact Fund* accounts for fire related impact fees derived from new development and the need or related capital assets.

The *Transportation Impact Fund* accounts for road related impact fees derived from new development and the need for related capital assets.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### *MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (continued)*

The *Park Impact Fund* accounts for park related system impact fees derived from new development and the need for related capital assets.

The *Police Impact Fund* accounts for police related impact fees derived from new development and the need for related capital assets.

*Permanent funds* (Cemetery Fund) account for resources that are legally restricted to the extent that only earnings, and not principal, may be used to support the City's maintenance and care of the Cemetery.

*Internal service funds* are used to account for the central financing of services provided by an internal service fund to various departments of the City on a cost-reimbursement basis. The Risk Management internal service fund accounts for the City's insurance activities. The Fleet Management Fund accounts for the City's vehicles related to governmental activities.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments to the General Fund by various enterprise funds for providing administrative and billing services for such funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. General revenues include all taxes imposed by the City.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of all enterprise funds are charges to customers of the system for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### *BUDGETARY DATA*

Annual budgets are prepared and adopted, in accordance with State law, by the City Council on or before June 22 for the following fiscal year. Estimated revenues and appropriations may be increased or decreased by resolution of the City Council at any time during the year. A public hearing must be held prior to any proposed increase in a fund's appropriations. Budgets include activities in several different funds, including the General Fund, Special Revenue Funds and Enterprise Funds. The Cemetery Fund (Permanent Fund) does not adopt an annual budget. Annual budgets are also adopted for capital projects which may include activities which overlap several fiscal years. The level of the City's budgetary control (that is, the level at which the City's expenditures cannot legally exceed the appropriated amounts) is established at the department level. Each department head is responsible to the City Manager and City Council for operating within the budget for their departments. All annual budgets lapse at fiscal year-end.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### *BUDGETARY DATA (continued)*

Utah State law prohibits the appropriation of the sum of unassigned, assigned, and committed General Fund balance until it exceeds 5% of the General Fund revenues. Until the sum of the stated fund balance categories is greater than the above amount, it cannot be budgeted, but is used to provide working capital until tax revenue is received, to meet emergency expenditures, and to cover unanticipated deficits. Utah State law also prohibits the accumulation of the stated fund balance categories (aggregate of committed, assigned, and unassigned) in the General Fund in any amounts greater than 35% of the current year's total actual revenues.

Once adopted, the budget can be amended by subsequent City Council action. The City Council can amend the budget to any extent, provided the budgeted expenditures do not exceed budgeted revenues and appropriated fund balance, in which case a public hearing must be held. With the consent of the City Manager and Finance Director, department heads may reallocate unexpended appropriated balances from one expenditure account to another within that department during the budget year.

Budgets for the General Fund, Special Revenue Funds, and Capital Projects Funds are prepared on the modified accrual method of accounting. Encumbrance accounting is not used by the City. Although Utah State law requires the initial preparation of budgets for all City funds (both governmental and proprietary), it only requires the reporting of budget versus actual for governmental funds.

Expenditures in the Capital Projects Funds are budgeted annually on a project-by-project basis. Although it is the intention of the City for each project be funded by a specific revenue source, the adopted budget reflects only total anticipated revenues by source. Since it is not practicable or appropriate to separate revenues and fund balance on a project-by-project basis, the Capital Projects Fund is reported as individual fund in the accompanying financial statements.

### *TAX REVENUES*

On or before June 22 of each year, the City sets the property tax rate for various municipal purposes. If the City intends to increase property tax revenues above the tax rate of the previous year, State law requires the City to provide public notice to property owners and hold public hearings. When these special public hearings are necessary, the adoption of the final budget must be done before August 17. All property taxes levied by the City are assessed and collected by Salt Lake County and Utah County. Taxes are levied as of January 1 and are due November 30; any delinquent taxes are subject to a penalty. Unless the delinquent taxes and penalties are paid before January 15, a lien is attached to the property, and the amount of taxes and penalties bears interest from January 1 until paid. Tax liens are placed on a property on the January 1 following the due date of unpaid taxes. If after five years, delinquent taxes have not been paid, the County sells the property at a tax sale. Tax collections are remitted to the City from the County monthly. An accrual of delinquent current and prior year's property tax beyond that which was received within 60 days after fiscal year end has not been made, as the amounts are not deemed to be material.

Sales tax, 911 taxes, and telecom taxes are collected by the Utah State Tax Commission and remitted to the City monthly. An accrual has been made for all taxes received by the State for the period ended June 30 and, thus, due and payable to the City.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### *TAX REVENUES (continued)*

Franchise taxes are collected by telephone, mobile phone, natural gas, electric utilities, and cable television companies and remitted to the City periodically. An accrual has been made for fees due and payable to the City at June 30.

### *ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS AND NET POSITION*

**Cash and Cash Equivalents, Deposits and Investments:** The City considers all cash and investments with original maturities of three months or less to be cash and cash equivalents and includes deposits with financial institutions, money market accounts, bond reserve accounts, and accounts at the Utah Public Treasurer's Investment Trust (the State Treasurer's Pool). For the purpose of the statement of cash flows, cash and cash equivalents are defined as the cash and cash equivalent accounts and the restricted cash and cash equivalents accounts. Investments consist of debt securities and term deposits with financial institutions. Investments of the City are recorded at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

**Receivables and Payables:** Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds” (i.e., the current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances”.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not available financial resources.

Other receivables at June 30, 2025, consist of property taxes, franchise taxes, sales tax, grants and accounts (billings for user charged services, including unbilled utility services) and are shown net of an allowance for uncollectibles. The utility billings for charged services are billed to customers on a monthly basis. Ambulance service billings are billed to customers and insurance providers as incurred. Management has estimated the allowance for uncollectibles to be \$460,336 (all funds combined), which is estimated based on historical trends related to collections of accounts receivable.

**Restricted Assets:** Assets whose use is restricted for construction, debt service or by other independent third parties, enabling legislation, or other laws and statutes. When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

**Prepays:** Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepays are accounted for under the consumption method.

**Equity Investment in Joint Venture:** The investment in Trans–Jordan Cities Landfill, a 10.40% owned joint venture is accounted for by the equity method of accounting. Under this method, the Solid Waste Fund (enterprise fund) records its share of the joint venture's net income or loss for each period.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### *ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS AND NET POSITION (continued)*

**Capital Assets:** Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with a useful life in excess of one year and an initial, individual cost in excess of the amount listed in the following table:

Assets	Capitalization	
	Threshold	Years
Water tanks	\$ 50,000	100
Infrastructure	20,000	10 - 60
Buildings and improvements	20,000	7 - 40
Improvements other than buildings	10,000	7 - 40
Machinery and equipment	10,000	5 - 15
Vehicles	20,000	5 - 10
Furniture and equipment	10,000	5 - 10
Office equipment	10,000	3 - 7

Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The City reports infrastructure assets on a network and subsystem basis. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

Upon retirement or disposition of capital assets, the cost and related accumulated depreciation are removed from the respective accounts. Depreciation of capital assets is computed using the straight-line method over their estimated useful lives as listed above.

**Unearned Revenue:** Unearned revenue arises when resources are received by the City before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the revenue is recognized.

**Compensated Absences:** Accumulated unpaid vacation is accrued as incurred on the government-wide financial statements, based on the years of service for each employee. Vacation time is accumulated on a biweekly basis and is fully vested when earned. The maximum annual carry-forward of accrued vacation hours is one and one-half's annual accrual hours per calendar year. Employees may also convert sick leave on an annual basis of 40 hours (48 for fire personnel) provided they have minimum aggregated sick balances of 480 hours (600 for fire personnel). The conversion can be done for cash, vacation, health savings plan, or qualified URS retirement plan. Employees may also be eligible for sick leave separation benefit of 80-320 hours depending on years of service. When an employee leaves or is terminated they are paid out at their current hourly rate. Sick leave was analyzed for usage based on historical and projected percentages and accrued using the LIFO basis of accounting.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### *ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS AND NET POSITION (continued)*

**Compensated Absences (continued):** Per the criteria outlined by GASB 101, *Compensated Absences*, all other potential leave benefits (i.e. holiday, bereavement leave, post-partum, military, etc.) have been deemed insignificant to the City's respective reporting funds as they do not result in any termination or retirement payments, but are rather a use-it or lose-it benefits to the employees and are dependent upon the occurrence of a sporadic event. As such, they are recognized more appropriately when the leave commences and is used.

**Deferred Inflows and Outflows of Resources:** In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items that qualify for reporting in this category. The governmental funds report unavailable revenues from two sources: property taxes (property taxes which will be levied and collected more than 60 days after year end) and certain long-term notes receivable (repayments on this note will be collected more than 60 days after year end). These amounts are deferred and recognized as an inflow of resources in the period in which the amounts become available. The City also has deferred inflows relating to pensions as of June 30, 2025.

Deferred outflows of resources represent a consumption of net assets that applies to a future period, and is therefore deferred until that time. A deferred loss on refunding results from the difference in the carrying value of the refunded debt and the reacquisition price. The City also has deferred outflows relating to pensions as of June 30, 2025.

**Pensions:** For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Utah Retirement Systems Pension Plan (URS) and additions to/deductions from URS's fiduciary net position have been determined on the same basis as they are reported by URS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The General Fund is used for liquidating pension liabilities for governmental fund employees, whereas the proprietary funds would be used for their employees.

**Long-term Obligations, Leases, and Software Subscriptions:** In the government-wide financial statements and proprietary funds, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary funds' Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the applicable debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period as other financing sources or uses. The face amount of debt issued is also reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures in the current period.

The City recognizes a lease or subscription payable and an intangible right-to-use lease asset or subscription assets in the government-wide financial statements for individual values over \$25,000. At the commencement of a lease or subscription, the City measures the lease or subscription payable at the present value of payments expected to be made during the lease term. Subsequently, the lease or subscription payable is reduced by the principal amount of the lease or subscription payments. The intangible right-to-use lease or subscription asset is measured at the initial amount of the lease or subscription payable, adjusted for payments made at or before the lease commencement date, plus initial direct costs. The asset is amortized over its useful life.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS AND NET POSITION (continued)

**Fund Balance and Net Position:** Net position is classified in the government-wide financial statements in three components:

- (1) *Net investment in capital assets* - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- (2) *Restricted net position* - consists of net position with constraints placed on the use either by (a) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
- (3) *Unrestricted net position* - All other net position that does not meet the definition of “restricted” or “net investment in capital assets”.

GASB Statement No. 54 provided new reporting categories for fund balance in governmental funds. The categories and descriptions are as follows:

- (1) *Nonspendable fund balance* classification includes amounts that cannot be spent because they are either (a) not in spendable form, or (b) legally or contractually required to be maintained intact.
- (2) *Restricted fund balance* classifications are restricted by enabling legislation. Also reported if, (a) externally imposed by creditor, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- (3) *Committed fund balance* classification includes amounts that can be used only for the specific purposes determined by a formal action of the government’s highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.
- (4) *Assigned fund balance* classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing council (council) has by resolution authorized the finance director to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year’s appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.
- (5) *Unassigned fund balance* classification is the residual classification for the General Fund or funds with deficit fund balances. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

Proprietary funds report net position in the same manner as the government-wide statements.

When restricted, committed, assigned, or unassigned resources are available for use, it is the City’s policy to use restricted resources first, followed by committed resources, then assigned, and then unassigned as they are needed.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### ***ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS AND NET POSITION (continued)***

**Estimates:** The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain financial statement balances. Actual results could vary from those estimates.

## 2. DEPOSITS AND INVESTMENTS

The City maintains a cash and investment pool that is available for use by all funds. Cash includes amounts in demand deposits as well as term deposits. Each fund's portion of this pool is displayed on the combined balance sheet as "cash and cash equivalents" and "restricted cash and cash equivalents," which includes cash accounts that are separately held by several of the City's funds. The State of Utah Money Management Council has the responsibility to advise the State Treasurer about investment policies, promote measures and rules that will assist in strengthening the banking and credit structure of the state, and review the rules adopted under the authority of the State of Utah Money Management Act (UMMA) that relate to the deposit and investment of public funds.

The City follows the requirements of UMMA (*Utah Code*, Title 51, Chapter 7) in handling its depository and investment transactions. The Act requires the depositing of City funds in a qualified depository, which is defined as a financial institution whose deposits are insured by an agency of the Federal Government and which has been certified by the State Commissioner of Financial Institutions as meeting the requirements of the Act and adhering to the rules of the Utah Money Management Council. UMMA defines types of securities authorized as appropriate investments for the City's funds and the conditions for making investment transactions. Investment transactions may be conducted only through qualified depositories, certified dealers, or directly with issuers of the investment securities.

Statutes authorize the City to invest in negotiable or nonnegotiable deposits of qualified depositories and permitted negotiable depositories; repurchase and reverse repurchase agreements; commercial paper that is classified as "first tier" by two nationally recognized statistical rating organizations; bankers' acceptances; obligations of the United States Treasury including bills, notes, and bonds; obligations, other than mortgage derivative products, issued by U.S. government sponsored enterprises (U.S. Agencies) such as the Federal Home Loan Bank System, Federal Home Loan Mortgage Corporation (Freddie Mac), and Federal National Mortgage Association (Fannie Mae); bonds, notes, and other evidence of indebtedness of political subdivisions of the State; fixed rate corporate obligations and variable rate securities rated "A" or higher, or the equivalent of "A" or higher, by two nationally recognized statistical rating organizations; shares or certificates in a money market mutual fund as defined in UMMA; and the Utah State Public Treasurers' Investment Fund. The City has complied with the UMMA and rules of the Money Management Council with regard to deposits and investments. The City does not have a separate deposit and investment policy that addresses specific types of deposit and investment risks to which the City is exposed.

The Utah State Treasurer's Office operates the Public Treasurers' Investment Fund (PTIF). The PTIF is available for investment of funds administered by any Utah public treasurer and is not registered with the SEC as an investment company. The PTIF is authorized and regulated by UMMA. The Act established the Money Management Council which oversees the activities of the State Treasurer and the PTIF and details the types of

## 2. DEPOSITS AND INVESTMENTS (CONTINUED)

authorized investments. Deposits in the PTIF are not insured or otherwise guaranteed by the State of Utah, and participants share proportionally in any realized gains or losses on investments.

The PTIF operates and reports to participants on an amortized cost basis. The income, gains, and losses of the PTIF, net of administration fees, are allocated based upon the participant's average daily balance. The fair value of the PTIF investment pool is approximately equal to the value of the pool shares.

### *Fair Value of Investments*

The City measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Financial instruments with unadjusted, quoted prices listed on active market exchanges.
- Level 2: Financial instruments lacking unadjusted, quoted prices from active market exchanges, including over-the-counter traded financial instruments. The prices for the financial instruments are determined using prices for recently traded financial instruments with similar underlying terms as well as directly or indirectly observable inputs, such as interest rates and yield curves that are observable at commonly quoted intervals.
- Level 3: Financial instruments that are not actively traded on a market exchange. This category includes situations where there is little, if any, market activity for the financial instruments. The prices are determined using significant unobservable inputs or valuation techniques. Quoted prices for identical investments in active markets.

At June 30, 2025, the City had the following recurring fair value measurements.

	06/30/25	Fair Value Measurements Using		
		Level 1	Level 2	Level 3
Securities				
PTIF	\$ 58,058,925	\$ -	\$ 58,058,925	\$ -
Certificates of deposit	29,194,204	-	29,194,204	-
Corporate bonds	30,568,669	-	30,568,669	-
US Treasuries	12,053,509	12,053,509	-	-
Money market funds	1,285,895	-	1,285,895	-
Total debt securities	<u>\$ 131,161,202</u>	<u>\$ 12,053,509</u>	<u>\$ 119,107,693</u>	<u>\$ -</u>

The City's cash and cash equivalents and investments are exposed to certain risks as outlined below:

*Custodial credit risk* – deposits is the risk that in the event of a bank failure, the City's deposits may not be returned. As of June 30, 2025, \$3,003,469 of the City's \$3,878,337 bank balance was exposed to custodial credit risk because it was uninsured and uncollateralized. UMMA does not require deposits to be insured or collateralized and the City has no formal policy regarding deposit credit risk. UMMA requires that the City keep deposits in a qualified depository, which the City has done.

## 2. DEPOSITS AND INVESTMENTS (CONTINUED)

*Custodial credit risk – investments* is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments that are in the possession of an outside party. Of the City's investment in the Utah Public Treasurer's Investment Fund (PTIF) of \$58,058,925, the government has no custodial credit risk exposure as the PTIF is an external investment pool managed by the Utah State Treasurer and is not categorized as to custodial credit risk.

*Credit risk* is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City's policy for limiting the credit risks of investments is to comply with UMMA. Securities rated less than "A" met the investment criteria at the time of purchase or are covered by FDIC (CDs).

As of June 30, 2025, the City had the following investments and quality rating:

Investment Type	06/30/25	Quality Ratings					
		AAA	AA	A	BBB	BB	Unrated
PTIF	\$ 58,058,925	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 58,058,925
Certificates of deposit	29,194,204	-	1,864,885	1,204,449	234,432	-	25,890,438
Corporate bonds	30,568,669	-	19,716,208	6,627,989	-	-	4,224,472
US Treasuries	12,053,509	-	12,053,509	-	-	-	-
Money market funds	1,285,895	1,285,895	-	-	-	-	-
Total debt securities	<u>\$ 131,161,202</u>	<u>\$ 1,285,895</u>	<u>\$ 33,634,602</u>	<u>\$ 7,832,438</u>	<u>\$ 234,432</u>	<u>\$ -</u>	<u>\$ 88,173,835</u>

*Interest rate risk* is the risk that changes in the interest rates will adversely affect the fair value of an investment. The City has no formal policy relating to specific investment-related interest rate risk. The City manages its exposure by investing mainly in the PTIF and by adhering to the Money Management Act. The Act requires that the remaining term to maturity may not exceed the period of availability of the funds to be invested. The Act further limits the remaining term to maturity on all investments in commercial paper, bankers' acceptances, fixed rate negotiable deposits, and fixed rate corporate obligations to 270 days - 15 months or less. The Act further limits the remaining term to maturity on all investments in obligations of the United States Treasury; obligations issued by U.S. government sponsored enterprises; and bonds, notes, and other evidence of indebtedness of political subdivisions of the State to 5 years. In addition, variable rate negotiable deposits and variable rate securities may not have a remaining term to final maturity exceeding 3 years.

As of June 30, 2025, the City's investments had the following maturities:

Investment Type	Fair Value	Investment Maturities (in Years)	
		Less Than 1	1-5
PTIF	\$ 58,058,925	\$ 58,058,925	\$ -
Certificates of deposit	29,194,204	9,869,528	19,324,676
Corporate bonds	30,568,669	6,462,227	24,106,442
US Treasuries	12,053,509	3,744,293	8,309,216
Money market funds	1,285,895	1,285,895	-
	<u>\$ 131,161,202</u>	<u>\$ 79,420,868</u>	<u>\$ 51,740,334</u>

## 2. DEPOSITS AND INVESTMENTS (CONTINUED)

*Concentration of credit risk* is the risk of loss attributed to the magnitude of a City's investment in a single issuer. The City's policy for reducing this risk of loss is to comply with the rules of the Money Management Council. Rule 17 of the Money Management Council limits investments in a single issuer of commercial paper and corporate obligations to 5-10% depending upon the total dollar amount held in the portfolio. The City's investment in the PTIF has no concentration of credit risk as the PTIF is an external investment pool managed by the Utah State Treasurer. The City also had no concentration of credit risk in its other investments.

The PTIF invests in high-grade securities which are delivered to the custody of the Utah State Treasurer, assuring a perfected interest in the securities, and, therefore, there is very little credit risk except in the most unusual and unforeseen circumstances. The maximum weighted average life of the portfolio does not exceed 90 days. Twice a year, at June 30 and December 31, which are the accounting periods for public entities, the investments are valued at fair value and participants are informed of the fair value valuation factor. Additional information is available at the Utah State Treasurer's Office.

For the year ended June 30, 2025, the City had investments of \$58,058,925 with the PTIF. The fair value of these investments was \$58,174,196 using a fair value factor of 1.00198542.

Following are the City's cash and investments at June 30, 2025:

	<b>Carrying Value</b>
<b>Cash on hand and on deposit:</b>	
Cash on hand	\$ 6,440
Cash on deposit	2,364,765
PTIF accounts	<u>58,058,925</u>
Total cash on hand and deposit	<u>\$ 60,430,130</u>
<b>Investments:</b>	
Debt securities	<u>73,102,277</u>
	<u><u>\$ 73,102,277</u></u>

## 3. INTERFUND TRANSFERS

The purpose of the transfers was to provide support for related capital project expenditures and/or debt service payments. In addition, some transfers (i.e Ambulance Fund) were to support operational and payroll costs for paramedics. Transfers among the funds during the current year were:

	<b>Transfers In</b>	<b>Transfers Out</b>
General Fund	\$ 923,081	\$ 18,142,104
Capital Projects Fund	10,255,121	-
Redevelopment Agency	-	462,456
Nonmajor Governmental Funds	192,007	2,602,267
Water Fund	2,000,000	-
Ambulance Fund	2,200,000	-
Internal Service Fund	<u>5,657,563</u>	<u>20,945</u>
	<u><u>\$ 21,227,772</u></u>	<u><u>\$ 21,227,772</u></u>

#### 4. RESTRICTED CASH AND CASH EQUIVALENTS

Certain cash and cash equivalents are restricted to use as follows as of June 30, 2025:

	<u>Amount</u>
<b>Governmental activities</b>	
Restricted for debt service	\$ 674,373
Restricted for cemetery	170,259

#### 5. EQUITY INVESTMENT IN JOINT VENTURE

##### *TRANS-JORDAN CITIES LANDFILL*

The Solid Waste Fund has a 10.41% ownership in the Trans-Jordan Cities Landfill (Trans-Jordan), which is accounted for using the equity method. In addition to the City, the Trans-Jordan Cities Landfill is owned by the cities of Midvale, Murray, Sandy, South Jordan, West Jordan and Riverton which own 5.22%, 7.57%, 26.63%, 17.18%, 21.88% and 11.12% of the landfill, respectively. Trans-Jordan Cities Landfill is a separate legal entity and political subdivision of the State of Utah and was formed pursuant to the provisions of the Interlocal Cooperation Act in 1968. The City has no firm commitment to make additional equity investments in the Trans-Jordan Cities Landfill. The City's ownership in Trans-Jordan is calculated from the tipping fees for the preceding ten fiscal years. Tipping fees are paid from the solid waste fund and were \$551,308 for fiscal year 2025.

Trans-Jordan Cities Landfill was formed to construct, operate, and maintain a refuse dumping facility. Trans-Jordan is governed by its Board of Directors. Under the organization agreement, the Board of Directors are appointed by the member cities and are composed of the Mayors or their appointed representatives. The Board of Directors appoints the management and staff of the Trans-Jordan association and approves all financial matters such as the operating budget and usage fees.

Annually, the City recognizes its pro-rata share of Trans-Jordan's operating income or loss. For fiscal year 2025, Trans-Jordan reported an increase in net position of \$4,193,988. The City recognized its 10.41% of the landfill's income, as well as a change in the City's percent of ownership in the landfill, as equity income of a joint venture of \$427,762 in the Solid Waste enterprise fund under the nonoperating revenues heading.

The complete financial statements for Trans-Jordan Cities Landfill for the year ended June 30, 2025, can be obtained from Trans-Jordan Cities, 10873 S 7200 W, South Jordan, UT 84095.

## 6. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2025, was as follows:

	6/30/2024	Increases	Decreases	06/30/25
<b>Governmental activities</b>				
Capital assets, not being depreciated:				
Land	\$ 114,412,290	\$ 192,832	\$ (5,850,850)	\$ 108,754,272
Right of ways - canals	636,300	-	-	636,300
Right of ways - roads	239,612,615	40,363	-	239,652,978
Construction in progress	4,661,339	3,139,603	(1,486,985)	6,313,957

Office equipment	(231,034)	(13,606)	-	(244,640)
Furniture and fixtures	(11,834)	-	-	(11,834)
Total accumulated depreciation	(42,102,639)	(2,653,994)	1,478,177	(43,278,456)
Total capital assets				
being depreciated, net	53,694,751	3,381,490	(647,678)	56,428,563
Business-type capital assets, net	\$ 59,943,071	\$ 4,696,556	\$ (4,406,813)	\$ 60,232,814

In the government-wide financial statements depreciation was charged as follows by program or activity:

Governmental activities:				
General government				\$ 538,280
Public safety				1,088,705
Streets and public improvements				6,321,905
Community development				60,601
Parks and recreation				1,653,602
Total depreciation and amortization expense - governmental activities				\$ 9,663,093
Business-type activities:				
Water Fund				\$ 1,355,840
Storm Water Fund				828,885
Solid Waste Fund				348,880
Ambulance Fund				120,389
Total depreciation expense - business-type activities				\$ 2,653,994

The City has also purchased five million gallons of water storage capacity in another governmental entity's storage tank. The cost in purchasing this capacity was \$2,000,000. The City reviews this asset on an annual basis to determine if impairment has occurred. No impairment has been recorded in the current year.

## 7. DEVELOPER AND CUSTOMER DEPOSITS

Developer and customer deposits are principally deposits from customers that are held by the City for water connections or for construction projects and development agreements until such time that refund or forfeiture is warranted.

## 8. DEFERRED INFLOW OF RESOURCES

In conjunction with GASB pronouncement 33, “Accounting and Financial Reporting for Nonexchange Transactions” the City has accrued property tax receivable and a deferred inflow of resources for unavailable property tax revenue in the General Fund, TRSSD and Community Reinvestment Agency in the amounts of \$10,186,796, \$544,843, and \$8,169,906, respectively at June 30, 2025.

Property taxes recorded in the governmental funds are recorded using the modified accrual basis of accounting, wherein revenues are recognized when they are both measurable and available (expected to be received within 60 days). Property taxes attach as an enforceable lien on property as of the first day of January. Taxes are levied on October 1, and then are due and payable at November 30. Since the property tax levied on October 1 was not expected to be received within 60 days after the year ended June 30, 2025, the City was required to record a receivable and unearned revenue of the estimated amount of the total property tax to be levied on October 1, 2025.

## 9. LEASES AND SUBSCRIPTION ASSETS AND PAYABLES

### Lease Payables

The City has entered into a lease agreement, as a lessee, for the use of body cameras for its police officers. The lease payable is measured as the present value of the future minimum lease payments to be made during the lease term at a discount rate of 1.284% which was based on the estimated federal risk-free rate at the lease inception. An initial lease payable was recorded in the amount of \$236,533 during fiscal year 2022. As of June 30, 2025, the value of the lease payable was \$143,680. The City is required to make annual principal and interest payments of \$25,034 for the body camera equipment. The equipment has a 120-month useful life. The value of the intangible right-to-use lease assets as of June 30, 2025 was \$236,533, at cost, with accumulated amortization of \$85,809 (see note 6). The City has one extension option for 60 months, which they anticipate to renew.

The future minimum lease obligations as of June 30, 2025 are as follows:

Year end June 30,	Principal	Interest	Total
2026	\$ 23,189	\$ 1,845	\$ 25,034
2027	23,487	1,547	25,034
2028	23,789	1,246	25,035
2029	24,094	940	25,034
2030	24,404	631	25,035
2031	24,717	317	25,034
	<u>\$ 143,680</u>	<u>\$ 6,526</u>	<u>\$ 150,206</u>

## 9. LEASES AND SUBSCRIPTION ASSETS AND PAYABLES (CONTINUED)

### Subscription Assets and Payable

The financial statements include the application of GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. The primary objective of this statement is to enhance the relevance and consistency of information about governments' subscription activities. This statement establishes a single model for subscription accounting based on the principle that subscriptions are financings of the right to use an underlying asset. Under this statement, an organization is required to recognize a subscription liability and an intangible right-to-use subscription asset. For additional information, refer to the disclosures below.

In November 2022, the City entered into a 108-month subscription for the use of Axon software. An initial subscription payable was recorded at \$174,948. As of June 30, 2025, the value of the subscription payable was \$117,343. The City is required to make annual payments of \$20,445. The subscription has an interest rate of 1.284%, which was based on the estimated federal risk-free rate. The value of the intangible right-to-use subscription asset as of June 30, 2025 was \$174,948 with accumulated amortization of \$51,080. The City has an extension option for 60 months on this software that is anticipated to be renewed.

In October 2022, the City entered into a 56-month subscription for the use of ClearGov software. An initial subscription payable was recorded at \$63,745. As of June 30, 2025, the value of the subscription payable was \$28,200. The City is required to make annual payments ranging from \$10,313 to \$15,025. The subscription has an interest rate of 1.284%, which was based on the estimated federal risk-free rate. The value of the intangible right-to-use subscription asset as of June 30, 2023 was \$66,745, which included a prepayment of \$3,000 for development that was completed, with accumulated amortization of \$38,642. The City has an extension option for 12 months on this software that is anticipated to be renewed.

In July 2023, the City entered into a 72-month subscription for the use of Davenport (LAMA) software. An initial subscription payable was recorded at \$214,934. As of June 30, 2025, the value of the subscription payable was \$143,367. The City is required to make annual payments of \$38,286. The subscription has an interest rate of 2.692%, which was based on the estimated federal risk-free rate. The value of the intangible right-to-use subscription asset as of June 30, 2025 was \$363,605, which included a prepayment of \$148,671 for development that was completed, with accumulated amortization of \$121,202.

The amount of the intangible right-to-use subscription asset by major classes is as follows as of June 30, 2025:

### Governmental Activities

Asset Class	Subscription	Accumulated
	Asset Value	Amortization
Software	\$ 605,298	\$ 210,924

Debt service requirements to maturity, including interest, for the subscription payable:

### Governmental Activities

Year ending June 30	Principal	Interest	Total
2026	\$ 67,021	\$ 6,298	\$ 73,319
2027	69,080	4,677	73,757
2028	55,733	2,998	58,731
2029	56,960	1,771	58,731
2030	19,930	515	20,445
2031-2032	20,186	259	20,445
	\$ 288,910	\$ 16,518	\$305,428

## 10. LONG-TERM DEBT

### *CHANGES IN LONG-TERM LIABILITIES*

Long-term debt activity for the year ended June 30, 2025, was as follows:

	6/30/2024	Increases	Decreases	06/30/25	Due in One Year
<b><u>Governmental activities</u></b>					
Bonds payable:

## 10. LONG-TERM DEBT (CONTINUED)

The following is a summary and description of the individual bonds and debt obligations of the City during the year ended June 30, 2025:

### GOVERNMENTAL ACTIVITIES:

<u>Sales Tax Revenue Bonds</u>	<u>Amount</u>
Series 2014 Sales Tax Revenue Refunding Bonds, original issue of \$3,890,000, principal due in annual installments beginning November 2015, interest at 2.00% to 4.00% due in semi-annual installments beginning May 2015, with the final payment due November 2025. The bonds were issued to finance the refunding of the Series 2005 Municipal Building Authority Lease Revenue and Refunding Bonds that were originally used for the acquisition park and recreation land and related construction. This bond was a direct placement.	\$ 405,000
Series 2023 Sales Tax Revenue Refunding Bonds, original issue of \$6,895,000, principal due in annual installments beginning May 2024, interest at 5.00% due in semi-annual installments beginning May 2024, with the final payment due May 2032. The bonds were issued to finance the refunding on the Series 2012C Sales Tax Revenue Bonds used by a non-profit organization's for the costs of designing and constructing an aquarium within City limits.	5,630,000
Series 2022 Sales Tax Revenue Bonds, original issue of \$4,980,000, principal due in annual installments beginning November 2023, interest at 4.00% to 5.00% due in semi-annual installments beginning May 2023, with the final payment due November 2039. The bonds were issued to finance the acquisition of land.	4,580,000
Total Sales Tax Revenue Bonds - Governmental Activities	<u>\$ 10,615,000</u>

### BUSINESS-TYPE ACTIVITIES:

<u>Revenue Bonds</u>	<u>Amount</u>
Series 2011 Water Revenue Bonds, original issue of \$2,015,000, principal due in annual installments beginning July 2011, interest at 2.47% due in annual installments beginning July 2011, with the final payment due July 2031. The bonds were issued for the purpose of financing the costs of acquiring, constructing, and installing water lines, a storage tank, and related water improvements.	\$ 815,000
Total Water Revenue Bonds - Business-type Activities	<u>\$ 815,000</u>

### GOVERNMENTAL AND BUSINESS-TYPE ACTIVITIES:

<u>Notes Payable</u>	<u>Amount</u>
Vista Project Area, original amount of \$14,298,208, payments due from future impact fees City will assess and collect on all development activities within this designated Master Developer Parcel, beginning in fiscal year 2015, with the final payment to be determined based on impact fee collections for transportation, storm water, and culinary water for this specific area. The principal payments are made from the Capital Projects Fund, Water Fund, and Storm Water Fund. The note was used to acquire right of ways, road and underpass construction, and water and storm drain system installations.	\$ 10,549,306
Total Notes Payable - Governmental Activities	\$ 9,744,594
Total Notes Payable - Business-type Activities	\$ 804,712

## 10. LONG-TERM DEBT (CONTINUED)

All the City's Sales Tax Revenue Bonds and Water Revenue Bonds are payable solely by a pledge and assignment of their associated revenue sources. An estimated \$13,439,825 in sales tax has been pledged through 2040. Total future water net revenues of \$897,449 have been pledged through 2032. The current revenue recognized during the period for pledged Sales Tax Revenue bonds was \$20,609,052 compared to principal and interest of \$1,805,525, which equals a coverage multiple of 11.4. The current year revenue recognized during the year for pledged Water Revenue was \$6,868,879 compared to principal and interest of \$128,749 which equals a coverage ratio of 53.4.

The annual debt service requirements to maturity are as follows:

Year Ending June 30,	Governmental Activities		
	Sales Tax Revenue Bonds		
	Principal	Interest	Totals
2026	\$ 1,315,000	\$ 491,275	\$ 1,806,275

## 11. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the City carries commercial insurance. This insurance covers all of these risks except natural disasters. The government is self-insured for risk of loss involving employees, which amounts are based on work risk factors and experience as set forth by worker's compensation insurance. Claims and settlements against the City have not exceeded the insurance coverage in each of the past three years.

The City is also a member of the Utah Risk Management Association (URMA) which is an insurance pool of municipalities in the state for liability insurance. The pool purchases umbrella insurance against large claims, and each city has a \$7,500 deductible before the pool pays from its reserves and/or policy.

## 12. RETIREMENT PLANS

### *GENERAL INFORMATION ABOUT THE PENSION PLAN*

#### *Plan Description*

Eligible plan participants are provided with pensions through the Utah Retirement Systems (URS). URS is comprised of the following pension trust funds:

#### Defined Benefit Plans

- Public Employees Noncontributory Retirement System (Noncontributory System) and Firefighters Retirement System (Firefighter System); are multiple-employer, cost-sharing, retirement systems.
- The Public Safety Retirement System (Public Safety System) is a mixed agent and cost-sharing, multiple-employer public employee retirement system.
- Tier 2 Public Employees Contributory Retirement System (Tier 2 Public Employees System); is a multiple employer, cost-sharing, public employee retirement systems.
- Tier 2 Public Safety and Firefighter Contributory Retirement System (Tier 2 Public Safety and Firefighters System) is a multiple employer, cost-sharing, public employee retirement systems.

The Tier 2 Public Employees System became effective July 1, 2011. All eligible employees beginning work on or after July 1, 2011, who have no previous service credit with URS, are members of the Tier 2 Retirement System.

## 12. RETIREMENT PLANS (CONTINUED)

### *GENERAL INFORMATION ABOUT THE PENSION PLAN (continued)*

The Utah Retirement Systems (Systems) are established and governed by the respective sections of Title 49 of the Utah Code Annotated 1953, as amended. The Systems' defined benefit plans are amended statutorily by the State Legislature. The Utah State Retirement Office Act in Title 49 provides for the administration of the Systems under the direction of the Utah State Retirement Board, whose members are appointed by the Governor. The Systems are fiduciary funds defined as pension (and other employee benefit) trust funds. URS is a component unit of the State of Utah. Title 49 of the Utah Code grants the authority to establish and amend the benefit terms. URS issues a publicly available financial report that can be obtained by writing Utah Retirement Systems, 560 East 200 South, Salt Lake City, Utah 84102 or visiting the website: [www.urs.org](http://www.urs.org).

#### *Benefits Provided*

URS provides retirement, disability, and death benefits. Retirement benefits are as follows:

#### **Summary of Benefits by System**

System	Final Average Salary	Years of Service Required and/or Age Eligible for Benefit	Benefit Percent Per Year of Service	COLA**
Noncontributory System	Highest 3 years	30 years any age 25 years any age* 20 years age 60* 10 years age 62* 4 years age 65	2.0% per year all years	Up to 4%
Public Safety System	Highest 3 years	20 years any age 10 years age 60 4 years age 65	2.5% per year up to 20 years; 2.0% per year over 20 years present	Up to 2.5% to 4% depending on employer
Firefighter System	Highest 3 years	20 years any age 10 years age 60 4 years age 65	2.5% per year up to 20 years; 2.0% per year over 20 years present	Up to 4%
Tier 2 Public Employees System	Highest 5 years	35 years any age 20 years any age 60* 10 years age 62* 4 years age 65	1.5% per year all years	Up to 2.50%
Tier 2 Public Safety and Firefighter System	Highest 5 years	25 years any age 20 years any age 60* 10 years age 62* 4 years age 65	1.50% per year all years to June 30, 2020; 2.0% per year July 1, 2020 to present	Up to 2.50%

\*with actuarial reductions

\*\*All post-retirement cost-of-living adjustments are non-compounding and are based on the original benefit except for Judges, which is a compounding benefit. The cost-of-living adjustments are also limited to the actual Consumer Price Index (CPI) increase for the year, although unused CPI increases not met may be carried forward to subsequent years.

## 12. RETIREMENT PLANS (CONTINUED)

### *GENERAL INFORMATION ABOUT THE PENSION PLAN (continued)*

#### *Contribution Rate Summary*

As a condition of participation in the Systems, employers and/or employees are required to contribute certain percentages of salary and wages as authorized by statute and specified by the Utah State Retirement Board. Contributions are actuarially determined as an amount that, when combined with employee contributions (where applicable) is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability. Contribution rates as of June 30, 2025 are as follows:

#### Utah Retirement Systems

	<b>Employee</b>	<b>Employer</b>	<b>Employer 401(k)</b>
Contributory System			
111 - Local Governmental Division Tier 2	0.70%	16.01%	N/A
Noncontributory System			
15 - Local Governmental Division Tier 1	N/A	16.97%	N/A
Public Safety System			
Contributory			
122 - Tier 2 DB Hybrid Public Safety	4.73%	25.33%	N/A
Noncontributory			
43 - Other Div A with 2.5% COLA	N/A	33.54%	N/A
Firefighters Retirement System			
31 - Other Division A	15.05%	3.61%	N/A
132 Tier 2 DB Hybrid Firefighters	4.73%	14.08%	N/A
Tier 2 DC Only			
211- Local Government	N/A	5.19%	10.00%
222 - Public Safety	N/A	11.33%	14.00%
232 Firefighters	N/A	0.08%	14.00%

Tier 2 rates include a statutory required contribution to finance the unfunded actuarial accrued liability of the Tier 1 plans.

For fiscal year ended June 30, 2025, the employer and employee contributions to the Systems were as follows:

<b>System</b>	<b>Employer Contributions</b>	<b>Employee Contributions</b>
Noncontributory System	\$ 862,445	\$ -
Public Safety System	729,524	-
Firefighter System	42,200	394,475
Tier 2 Public Employees System	1,007,800	46,268
Tier 2 Public Safety and Firefighter System	818,146	187,978
Tier 2 DC Only System	95,272	-
Tier 2 DC Public Safety and Firefighter System	29,788	-
<b>Total Contributions</b>	<b>\$ 3,585,175</b>	<b>\$ 628,721</b>

Contributions reported are the URS Board approved required contributions by System. Contribution in Tier 2 Systems are used to finance the unfunded liabilities in the Tier 1 Systems.

## 12. RETIREMENT PLANS (CONTINUED)

### *COMBINED PENSION ASSETS, LIABILITIES, EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS*

At June 30, 2025, the City reported a net pension asset of \$1,010,101 and a net pension liability of \$5,260,608.

	(Measurement Date): December 31, 2024			Proportionate Share	
	Net Pension Asset	Net Pension Liability	Proportionate Share	December 31, 2023	Change
	\$ -	\$ 2,037,142	0.6394416%	0.6394416%	0.0000000%
Noncontributory System					
Public Safety System	-	2,251,651	1.4292179%	1.4292179%	0.0000000%
Firefighter System	1,010,101	-	6.1127729%	6.1127729%	0.0000000%
Tier 2 Public Employees System	-	608,114	0.1999230%	0.1999230%	0.0000000%
Tier 2 Public Safety and Firefighter System	-	363,701	0.8430235%	0.8430235%	0.0000000%
Total Net Pension Asset / Liability	\$ 1,010,101	\$ 5,260,608			

The net pension asset and liability was measured as of December 31, 2024, and the total pension liability used to calculate the net pension asset and liability was determined by an actuarial valuation as of January 1, 2024 and rolled-forward using generally accepted actuarial procedures. The proportion of the net pension asset and liability is equal to the ratio of the employer's actual contributions to the Systems during the plan year over the total of all employer contributions to the Systems during the plan year.

For the year ended June 30, 2025, the City recognized pension expense of \$4,706,885. At June 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 3,044,654	\$ 23,300
Changes in assumptions	656,602	5,774
Net difference between projected and actual earnings on pension plan investments	1,354,477	-
Changes in proportion and differences between contributions and proportionate share of contributions	345,485	39,792
Contributions subsequent to the measurement date	1,821,824	-
<b>Total</b>	<b>\$ 7,223,042</b>	<b>\$ 68,866</b>

## 12. RETIREMENT PLANS (CONTINUED)

### *COMBINED PENSION ASSETS, LIABILITIES, EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (continued)*

The \$1,821,824 reported as deferred outflows of resources related to pensions results from contributions made by the City prior to the fiscal year end, but subsequent to the measurement date of December 31, 2024. These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year Ended December 31,</b>	<b>Net Deferred Outflows (Inflows) of Resources</b>
2025	\$ 2,135,292
2026	2,715,141
2027	(158,859)
2028	48,701
2029	213,859
Thereafter	378,218

### *PENSION EXPENSE, DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES BY SYSTEM*

#### Noncontributory System

For the year ended June 30, 2025, the City recognized pension expense of \$1,860,446 At June 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 1,213,845	\$ -
Changes in assumptions	168,510	-
Net difference between projected and actual earnings on pension plan investments	613,620	-
Changes in proportion and differences between contributions and proportionate share of contributions	-	13,172
Contributions subsequent to the measurement date	440,916	-
<b>Total</b>	<b>\$ 2,436,891</b>	<b>\$ 13,172</b>

## 12. RETIREMENT PLANS (CONTINUED)

### *PENSION EXPENSE, DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES BY SYSTEM (continued)*

#### Noncontributory System (continued)

The \$440,916 reported as deferred outflows of resources related to pensions results from contributions made by the City prior to the fiscal year end, but subsequent to the measurement date of December 31, 2024. These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year Ended December 31,</b>	<b>Net Deferred Outflows (Inflows) of Resources</b>	
2025	\$	1,158,093
2026		1,119,164
2027		(248,987)
2028		(45,467)

#### Public Safety System

For the year ended June 30, 2025, the City recognized pension expense of \$1,382,936. At June 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 237,934	\$ -
Changes in assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	389,694	-
Changes in proportion and differences between contributions and proportionate share of contributions	3,834	-
Contributions subsequent to the measurement date	356,732	-
<b>Total</b>	<b>\$ 988,194</b>	<b>\$ -</b>

Thereafter	168,265

#### Tier 2 Public Safety and Firefighter System

For the year ended June 30, 2025, the City recognized pension expense of \$525,501. At June 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 220,190	\$ 19,111
Changes in assumptions	203,970	5,711
Net difference between projected and actual earnings on pension plan investments	23,574	-
Changes in proportion and differences between contributions and proportionate share of contributions	40,083	13,827
Contributions subsequent to the measurement date	432,369	-
<b>Total</b>	<b>\$ 920,186</b>	<b>\$ 38,649</b>

## 12. RETIREMENT PLANS (CONTINUED)

### *PENSION EXPENSE, DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES BY SYSTEM (continued)*

#### Tier 2 Public Safety and Firefighters System (continued)

The \$432,369 reported as deferred outflows of resources related to pensions results from contributions made by the City prior to the fiscal year end, but subsequent to the measurement date of December 31, 2024. These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year Ended December 31,</b>	<b>Net Deferred Outflows (Inflows) of Resources</b>
2025	\$ 41,226
2026	63,936
2027	23,618
2028	32,550
2029	77,885
Thereafter	209,953

#### *ACTUARIAL ASSUMPTIONS*

The total pension liability in the December 31, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Salary increases	3.5 - 9.5 percent, average, including inflation
Investment rate of return	6.85 percent, net of pension plan investment expense, including inflation

Mortality rates were adopted from an actuarial experience study dated January 1, 2023. The retired mortality tables are developed using URS retiree experience and are based upon gender, occupation, and age as appropriate with projected improvement using the ultimate rates from the MP-2020 improvement scale using a base year of 2020. The mortality assumption for active members is the PUB-2010 Employees Mortality Table for public employees, teachers, and public safety members, respectively.

The actuarial assumptions used in the January 1, 2024, valuation were based on an actuarial experience study for the period ending December 31, 2023.

## 12. RETIREMENT PLANS (CONTINUED)

### *ACTUARIAL ASSUMPTIONS (continued)*

The long-term expected rate of return on pension plan investments was determined using a building-block method, in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class and is applied consistently to each defined benefit pension plan. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Asset Allocation	Expected Return Arithmetic Basis	
		Real Return Arithmetic Basis	Long-Term Expected Portfolio Real Rate of Return
Equity securities	35%	7.01%	2.45%
Debt securities	20%	2.54%	0.51%
Real assets	18%	5.45%	0.98%
Private equity	12%	10.05%	1.21%
Absolute return	15%	4.36%	0.65%
Cash and cash equivalents	0%	0.49%	0.00%
<b>Totals</b>	<b>100%</b>		<b>5.80%</b>
	<b>Inflation</b>		<b>2.50%</b>
	<b>Expected arithmetic nominal return</b>		<b>8.30%</b>

The 6.85% assumed investment rate of return is comprised of an inflation rate of 2.50% and a real return of 4.35% that is net of investment expense.

#### *Discount Rate*

The discount rate used to measure the total pension liability was 6.85%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from all participating employers will be made at contractually required rates that are actuarially determined and certified by the URS Board. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate does not use the Municipal Bond Index Rate.

## 12. RETIREMENT PLANS (CONTINUED)

### *ACTUARIAL ASSUMPTIONS (continued)*

#### *Sensitivity of the Proportionate Share of the Net Pension Asset and Liability to Changes in the Discount Rate*

The following table presents the proportionate share of the net pension liability calculated using the discount rate of 6.85%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (5.85%) or one percentage-point higher (7.85%) than the current rate:

System	1%	Discount	1%
	Decrease (5.85%)	Rate (6.85%)	Increase (7.85%)
Noncontributory System	\$ 8,615,445	\$ 2,037,142	\$ (3,479,923)
Public Safety System	6,917,397	2,251,651	(1,555,524)
Firefighters System	2,198,262	(1,010,101)	(3,626,146)
Tier 2 Public Employees System	1,816,288	608,114	(331,727)
Tier 2 Public Safety and Firefighter System	1,240,187	363,701	(337,063)
Total	<u>\$ 20,787,579</u>	<u>\$ 4,250,507</u>	<u>\$ (9,330,383)</u>

### *PENSION PLAN FIDUCIARY NET POSITION*

Detailed information about the pension plan's fiduciary net position is available in the separately issued URS financial report.

### *DEFINED CONTRIBUTION SAVINGS PLANS*

The Defined Contribution Savings Plans are administered by the Utah State Retirement Systems Board and are generally supplemental plans to the basic retirement benefits of the Retirement Systems, but may also be used as a primary retirement plan. These plans are voluntary tax-advantaged retirement savings programs authorized under sections 401(k), 457(b) and 408 of the Internal Revenue code. Detailed information regarding plan provisions is available in the separately issued URS financial report.

The City participates in a 401(k), 457(b), and Roth IRA Defined Contribution Savings Plans with URS. Employee and employer contributions to these plans for the year ended June 30, were as follows:

	2025	2024	2023
401(k) Plan*			
Employer contributions	\$ 948,551	\$ 899,358	\$ 740,659
Employee contributions	940,941	859,275	767,267
457 Plan			
Employer contributions	-	-	-
Employee contributions	326,175	309,547	285,774
Roth IRA Plan			
Employer contributions	N/A	N/A	N/A
Employee contributions	117,132	90,906	82,270

\* The employer paid 401(k) contributions include the totals paid for employees in the Tier 2 Defined Contribution 401(k) Plan.

## 13. COMMUNITY REINVESTMENT AGENCY OF DRAPER CITY

In accordance with Utah State law, the City makes the following disclosures relative to the Community Reinvestment Agency (CRA): The CRA collected \$8,169,906 of tax increment monies for its project areas. The CRA incurred expenditures of \$5,066,588 for development incentives and bond obligations. The CRA has several commitments for reimbursement to developers associated with the CRA project areas; see Note 14 for terms and schedules on notes. These commitments are contingent on the future collection of tax increments on the associated properties or project areas. The developers also have specific benchmarks written into these agreements that they must meet in order to qualify for the incentives or reimbursements. The CRA nor the City is reducing any amount of the property taxes that are assessed on the property. During 2025, the CRA expended \$531,303 for administrative and other general costs.

## 14. COMMITMENTS AND AGREEMENTS

### *CRA COMMITMENTS AND TAX ABATEMENTS*

The City may negotiate property, sales, and transient room tax abatement agreements with local businesses primarily through its CRA and under the state Limited Purpose Local Government Entities Act. Under the Act, the City may authorize a rebate of these taxes through a written development improvement agreement between the City and the developer. The amount of the tax rebate is based on the provisions as stated in the written agreement. The City further approves these rebates through its budget process, adopted annually by ordinance. The purpose of the tax abatements is to promote economic growth within the City.

The City, as of June 30, 2025, has entered into three active abatement agreements with developers. Two of the developers met all of their eligibility requirements in previous years by making all the required project area development improvements outlined in the written agreement. The last developer met a portion of the required project area development improvements and incentives outlined in the written agreement and payments were made according to the portion of the improvements and incentives that were met.

For the fiscal year ended June 30, 2025, the City abated the following taxes:

Project Area	Developer	Tax Type	FY2025 Payment	Total		Purpose	Expiration Year
				Total Paid to Date	Maximum Abatement		
Frontrunner	BG Vista, L.C	Property Tax	\$ 1,763,910	\$ 14,790,179	\$ 58,820,533	Transit supportive development	FY2035
	Draper Holdings, LLC	Property Tax	\$ 1,783,910	\$ 15,385,463	\$ 18,637,006	Transit supportive development	FY2035
South Mountain	Pluralsight	Property Tax	\$ -	\$ 1,693,102	\$ 24,047,647	Economic development	FY2041

## 14. COMMITMENTS AND AGREEMENTS (CONTINUED)

### *OTHER COMMITMENTS AND AGREEMENTS*

The City has entered into an agreement with Jordan Valley Water Conservancy District in January 2011 to purchase a minimum amount of water in perpetuity unless the agreement is terminated or amended by the mutual consent of the two parties. The agreement stipulates a minimum gallon per minute (GPM) water flow annual average of 3,800 with a maximum of 5,665 for calendar year 2015 and thereafter. During the year ended June 30, 2025 the City made water purchases of \$3,003,681 under this agreement.

The City has construction commitments outstanding at year end for projects which have been awarded and construction has begun, but which have not been paid for at year end. Total unpaid construction commitments at June 30, 2025 were \$9,218,552 on original contracts totaling \$10,841,834.

## 15. CONDUIT DEBT OBLIGATIONS

In December 2010, the City issued Recovery Zone Facility Revenue Bonds, Series 2010 of \$10,250,000 to provide financial assistance to a private-sector entity for the acquisition, construction, improvement, and equipment of hotel facilities deemed to promote the general welfare of the residents of the state of Utah. The bonds are payable solely and exclusively from the revenues arising from the pledge of a note which the private company has given as security for the bonds. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of June 30, 2025 the outstanding amount of this obligation is \$6,213,197.

## 16. CHANGE IN ACCOUNTING PRINCIPLES

In June 2022, the GASB issued Statement No. 100, *Accounting Changes and Error Corrections*, which was an amendment of GASB No. 62. The statement is meant to enhance the accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The City adopted and implemented this statement during the current fiscal year, but management has determined no accounting changes or error corrections were significant enough to merit a restatement.

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*, to improve the recognition and measurement of liabilities for compensated absences, including vacation, sick leave, and other paid leave benefits. The City has implemented GASB 101 and analyzed all leave policies in relation to the new standard. The City also evaluated the effects of this implementation on the beginning compensated absences for fiscal year ended June 30, 2024, and determined that no significant or material adjustment to any reported fund or entity-wide activity were noted and, therefore, no restatement was required. As such, the impacts on the City's financial position, results of operations, and cash flows have been reported in the current year. The calculations were updated to match the standard and defined contributions were added to the salary related costs where necessary.

In December 2023, the GASB issued Statement No. 102, *Certain Risk Disclosures*. The City has adopted and implemented this standard by reviewing all revenues and expenditures to check for concentration or constraints risks which may limit the City's ability to acquire resources or control spending. There were no substantial concentrations of revenue sources or suppliers, and no substantial constraints on the City's ability to provide services.

**Note:**

Contributions as a percentage of covered-employee payroll may be different than the Board certified rate due to rounding or other administrative practices.

\* Contributions in Tier 2 include an amortization rate to help fund the unfunded liabilities in the Tier 1 systems. Tier 2 systems were created effective July 1, 2011.

**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION**  
**JUNE 30, 2025 - CITY OF DRAPER, UTAH**

**1. ACTUARILY DETERMINED PENSION CONTRIBUTIONS**

Contribution rates include an amount for normal cost, the estimated amount necessary to finance benefits earned by the members during the current year, and an amount for amortization of the unfunded or excess funded actuarial accrued liability over a closed 20-year amortization period. The rates are determined using the entry age actuarial cost method.

Contributions made were in accordance with actuarially computed funding requirements. For contribution rate purposes the actuary evaluates the assets of the plan based on a 5-year smoothed expected return wherein 20 percent of a year's excess or shortfall of expected return is recognized each year for five years.

**2. CHANGES IN ASSUMPTIONS**

There were no changes in the actuarial assumptions or methods since the prior actuarial valuation.

**3. BUDGETARY INFORMATION**

See note 1 in the notes to the financial statements.

# STATISTICAL SECTION

This section presents detailed information as a context for better understanding the government's overall financial health in conjunction with the financial statements, notes, and required supplementary information.

### **Financial Trends**

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Schedules 1- 4

### **Revenue Capacity**

These schedules contain information to help the reader assess one of the City's most significant local revenue sources – sales tax and property tax.

Schedules 5 - 11

### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Schedules 12 - 16

### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Schedules 17 - 18

### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Schedules 19 - 20

**Schedule 1**  
**CITY OF DRAPER, UTAH**  
**Net Position by Component**  
**Last Ten Fiscal Years**

Notes: Prior period adjustments in FY16 represent corrects to how capital assets were reported for years between 2009 and 2016.

Notes: 2014 - 2021 net investment in joint venture income/loss was changed in the FY22 ACFR to be reported with business-type capital grants and contributions rather than with other changes to net position.

Note: Since 2003, the Redevelopment Agency (CDRA) is included with the governmental funds per generally accepted accounting principles; however, beginning in 2015 only the property tax that is levied by Draper City is reported here. All Non-Draper levied taxes are now reported as intergovernmental revenues.

(1) Property tax includes current and delinquent property tax, motor vehicle in-lieu tax, and special assessment tax for the Traverse Ridge Special Service District.

Note: Property in Draper City is reassessed once every five years on average. The City assess property at approximately 55 percent of actual value for residential property and 100 percent of actual value for all other categories. Estimated actual taxable value is calculated by dividing taxable assessed value by those percentages.

(1) Assessed values are reported by the County on a calendar year basis rather than July 1 to June 30 fiscal year.

**Assessed Value as a Percentage of Actual Value**

(1) Taxes levied by Draper City and amounts collected by Salt Lake and Utah Counties and subsequently distributed to Draper City in that year for that levy.

Note 1 - Due to new growth and collections of personal property taxes which is not included in the levied tax; property tax collections can be higher than the levy.

Note 2 - FY17 is the first year in which haircut provisions for several CDRA areas no longer applied and those tax revenues were included as part of the City's property tax which were not included in the initial levy. This is a one-time increase that is not expected in future years.

<b>Total Direct and Overlapping General Obligation Debt</b>				<u><b>\$ 177,577,063</b></u>

**Notes:**

(1) USTC list of final values. Taxable value used in this table *excludes* the taxable value used to determine uniform fees on tangible personal property.

(2) Central Utah Water Conservancy District (CUWCD) outstanding general obligation bonds are limited *ad valorem* tax bonds. Certain portions of the principal of and interest on CUWCD's general obligation bonds are paid from sales of water. Includes taxable valuation from Salt Lake and Utah counties.

(3) This is the portion of the City within Salt Lake County.

(4) This is the portion of the City within Alpine School District, Utah County

(5) The State's general obligation debt is not included in overlapping debt because the State currently levies no property tax for payment of general obligation bonds.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mayor and Members of City Council  
City of Draper, Utah

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Draper, Utah (the City), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 13, 2025.

### ***Report on Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### ***Report on Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE STATE *COMPLIANCE AUDIT GUIDE*

Honorable Mayor and Members of the City Council  
City of Draper, Utah

### ***Report On Compliance***

We have audited City of Draper's (the City) compliance with the applicable state compliance requirements described in the *State Compliance Audit Guide*, issued by the Office of the Utah State Auditor, for the year ended June 30, 2025.

State compliance requirements were tested for the year ended June 30, 2025 in the following areas:

Budgetary Compliance  
Fund Balance  
Justice Courts  
Restricted Taxes and Related Restricted Revenues  
Fraud Risk Assessment  
Government Fees  
Tax Levy Revenue Recognition  
Utah Retirement Systems  
Crime Insurance for Public Treasurers

### ***Opinion on Compliance***

In our opinion, City of Draper complied, in all material respects, with the state compliance requirements referred for the year ended June 30, 2025.

### ***Basis for Opinion***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the *State Compliance Audit Guide* (*Guide*), issued by the Office of the Utah State Auditor. Our responsibilities under those standards and the *Guide* are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's government programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the *Guide* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of the government program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the *Guide*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the *State Compliance Audit Guide* but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Report On Internal Control over Compliance***

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or to detect and correct noncompliance with a state compliance requirement on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a state compliance requirement will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a state compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

### ***Purpose of This Report***

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control and compliance and the results of that testing based on the requirements of the *State Compliance Audit Guide*. Accordingly, this report is not suitable for any other purpose.
