

Draper City Clean-up Dumpster Program

In addition to the curbside garbage and recycling collection services, Draper City offers its residents a Dumpster Clean-up Program. The program is year round and for residential use only. Residents, neighborhood associations, homeowners associations, or other volunteer groups may schedule the delivery of a 20 cubic yard (16' length, 6' high and 8' wide) or a 30 cubic yard (22' length, 6' high and 8' wide) roll-off Dumpster for their clean up projects. The City, will provide the Dumpster at a charge of \$120.00 (20 yd) and \$150.00 (30 yd).

Residents (individual homeowners) are limited to 1 dumpster rental up to 3 times per 365-day period per delivery location for a total of 3 rentals for the period. All 3 rentals may take place simultaneously, if desired, depending on dumpster availability. Neighborhood associations, homeowners associations, or other volunteer groups are limited to up to 4 dumpster rentals up to 2 times per 365-day period per association location/project for no more than 8 dumpster rentals for the period. Exceptions to these limitations may be obtained from the Solid Waste Manager in advance of requesting dumpster rental.

Dumpsters are delivered on Mondays or Thursdays. Deliveries may not occur until, as late as, 3:30 p.m. and then they are picked up on the opposite day: Monday's deliveries are picked up Thursdays of the same week and Thursday's deliveries are picked up on the following Mondays starting at 7:00 am. Due to the popularity of the program, availability of the dumpsters varies throughout the year; at times a dumpster may not be available for up to 2 weeks. Dumpsters are only rented to HOA's on Mondays.

The dumpster may be used for yard debris (tree limbs, shrubbery, grass clippings, etc.) as well as building materials, household items, some appliances, furniture etc. **Items that are not acceptable in the dumpster are toxic, hazardous or flammable materials such as pesticides, herbicides, solvents, chemicals, paints, motor oil, gasoline, etc. Also, tires, batteries, freezers and refrigerators, and metal or plastic drums (unless the tops are cut off) may not be deposited in the Dumpster.** Please call 385-468-3862 for hazardous wastes disposal. The responsible party signing for the Dumpster will be liable for the illegal placement of these items or any spillage from overloading the dumpster. Dumpsters need to be placed on a flat solid surface.

20 yd dumpsters have a weight limit of 6 tons and 30 yd have a weight limit of 10 tons and cannot be overloaded. If concrete, dirt, or rock materials are deposited in the dumpster, the dumpster can only be filled one-third full. Dumpsters that are over the weight limit will be partially emptied at that time until it meets the requirement to be transported. Cracking or breakage may occur if dumpsters are placed on driveways, sidewalks or other concrete areas.

Draper City is released from any and all liability for damages resulting from equipment or personnel delivering or removing dumpsters and from any injuries incurred by individuals using the dumpsters.

Refunds will only be given if the dumpster is cancelled at least 5 business days prior to delivery date. All cancellations will be charged a \$10 bookkeeping fee.

Please call 576-6501 with questions or to check availability. All dumpsters must be ordered and paid for to finalize the reservation. Draper City Hall is located at 1020 E Pioneer Rd. and is open Monday through Friday 8 am-5 pm.
